

SIGHT

Monday 4.23.18

- **Earth Week Photo Exhibit**
- All Week, Avante Hallway

View environmental photos from our community and around the world.
[Submit](#) your photos today!

- **Start Seeing Bees!**
- 2 - 3pm, Room Z102

Can you spot the difference between a wasp and a honey bee? Learn why bees are important to the health of our planet from beekeeper Hans Burkert. Enjoy FREE honey tastings!

TASTE

Tuesday 4.24.18

- **Bottled or Tapped? H₂O Taste Tests**
- 11:30 - 1pm, Avante Hallway

Test your taste buds and decide for yourself which water tastes best!

- **Do You Have a Farmer?**
- 11:30 - 1pm, Avante Hallway

Learn about community supported agriculture from local farmers at the CSA information table. Farm fresh samples available.

SOUND

Wednesday 4.25.18

- **Soundwalk**
- 10 - 11am
Child Learning Center, 1123

Join us on a soundwalk and performance hosted by the Child Learning Center and professor Dan Godston. Enjoy listening to soundscapes in and around campus, followed by a participatory musical performance with instruments made from recycled materials.

TOUCH

Friday 4.27.18

- **Bike to Campus Friday**
- 7:25am, Palatine Train Station

Feel the road beneath your wheels and join Harper riders to learn an easy bike route from the Palatine Station to campus. Leaving after the 7:25am outbound train arrives at the station, riders will arrive on campus by 8am. Whether you commute by train or live nearby, all are welcome! OR - find a friend and bike your own route to campus.

- **Swale Planting**
- 9:30 - 10:30am
Parking Lot 5, Meet at J Theater

Get your hands dirty while planting native plants in one of Harper's vegetated swales. Wear work clothes. All materials provided. [Please RSVP](#) - space is limited.

- **Afternoon Bike Ride**
- 4pm, Meet outside Starbucks
Bring your bike to campus and enjoy a fun ride on Friday afternoon. All skill levels welcome.

SMELL

Thursday 4.26.18

- **Munch for the Planet: Does it Stink? Composting at Harper College**
- 12:30 - 1:30pm
Compost Site, Meet by Starbucks, Bldg. D

Check out Harper's NEW compost plots. Chemistry professor Julie Ellefson will lead participants to the site and explain the process of composting. Explore how student projects are helping to reduce Harper's environmental impact. **Bonus!** Bring your lunch scraps to be composted.

Embodying Earth:

Environmental Awareness through the Senses
