FACULTY EXHIBITION

January 25 – February 25, 2016

In addition to teaching, Harper's studio art faculty are dedicated to making and exhibiting their own work, which collectively represents a wide range of concept and material approaches. This biennial exhibition offers a valuable opportunity for faculty to share their work with students, colleagues and the community.

**Installation with Artist in Residency:

Deconstructed building materials and other discarded objects form the core of Katie Bell's sculptures and installations. The fragments of material she unravels from dumpsters and work sites get weaved into a new visual language that both questions and continues their history.

Originally from Rockford, Illinois, Bell now lives and works in Brooklyn, New York. Learn more about the artist at katiebellstudio.com.
