

2021 FALL MAMMOGRAPHY

Admission Requirements

Important Dates

PROGRAM START

Week of August 23, 2021

APPLICATION DATES

March 15, 2021 – July 15, 2021

Program Information

- Learn more about mammography as a career and the Harper College Mammography Program in particular, including course work, admission standards and program participation requirements by visiting the Harper College web site at www.harpercollege.edu or contact Admissions Outreach at 847.925.6247 to request information.

Submit College Application and Fee

- If you have not previously applied to the College, this is your first step.
- This application and fee can be submitted online or in person.

Submit the Mammography Program Application

- The Mammography Program Application is web-based. You can access the application through the MyHarper tab of your Student Portal.
- If you have forgotten your Login ID or PIN or need further assistance with the Student Information System, please contact the Student Service Desk: Call 847.925.6866 or e-mail StudentSD@harpercollege.edu

Program Prerequisites

Submit Documents

- **Proof of current licensure:**
 - Copy of your card from the Illinois Emergency Management Agency, Division of Nuclear Safety (IEMA, IDNS) indicating you will be currently registered as of the program start.
 - You can request a copy of your card by contacting the ARRT at www2.illinois.gov
- **Proof of good standing with the American Registry of Radiologic Technology:**
 - You must be registered as a Radiographic Technologist RT (R) and submit your ARRT card indicating you will be currently registered as of the program start.
 - You can request a copy of your card by contacting the ARRT at www.arrt.org or by calling 651.687.0048.
- **GPA**
 - Current or previously enrolled Harper students must have a minimum 2.0 grade point average.

Selection

- Graduates from Harper Radiologic Technology Program and Permanent residents or residents whose college district is a member of the CAREER Consortium that submit all required documentation to the Health Careers Division Office by the application deadline date and will be admitted in file completion order before any out-of-district residents. (Please note: Working in district does not constitute residency for selection purposes.)
- If more than one person has the same completion date, the date an applicant applied to the program will be used as a tie breaker.
- Applicants will be notified by email of the status of the screening process as soon as possible following the application deadline.

Important Admission Notes

- It is the applicant's responsibility to ensure that all requirements are met and all documentation is on file.
- Applicants will be considered Mammography Program admission candidates after all the required documents have been submitted and after satisfying the minimum academic requirement.
- Those who apply for this limited enrollment program are obligated to meet current admission requirements and follow the program curriculum as defined at the time of acceptance into the program.
- All correspondence regarding your limited enrollment application will be sent to the email address on record with the College. It is your responsibility to see that your Personal Profile information is current. You can check your information on the Student Portal on the My Harper tab under Personal Profile. To update your email address (and/or mailing address and phone number), you will need to contact the One Stop Center, Building A, Room A250. Residency is determined by the mailing address on record at Harper by the deadline date when or if accepted.
- Once your program application has been processed, you are able to monitor your limited enrollment file online. Go to **harpercollege.edu** and log into your **MyHarper Student Portal**; limited enrollment information can be found by clicking on the **Registration and Records** icon. Look under the **Limited Enrollment Program Admissions** section, and click on 'Check Your Limited Enrollment Status'.
- There is no guarantee that this limited enrollment program will remain open past the application deadline date. Therefore, if you are submitting your application on or just prior to that deadline date, you should take steps to insure that all required academic and/or official documentation of your having satisfied the admission requirements is submitted with your program application, or you may not be considered for admission.
- Applicants not accepted into the program who wish to be considered in the selection process for a future term **must reapply**.
- Applicants who are accepted into the Mammography Program will be required to provide evidence of health insurance coverage and have a physical exam and several immunizations and health screening tests prior to the first day of class. In addition,

accepted applicants will be required to undergo a background check. Applicants will receive information regarding these requirements following program acceptance.

- A higher tuition rate is assessed for career-specific courses; therefore, tuition for the courses in this program is 200 % of the standard tuition. The out-of-district rate for RAD-prefixed courses is more than twice as much as the doubled in-district rate.
