

2023 Summer Radiologic Technology Degree Program (RAD) Admission Requirements (now starts in the summer semester)

The information in this document is not designed to be a contractual agreement with an applicant. The program reserves the right to change without notice such things as program admission or completion requirements, costs and curriculum as needed and in accordance with Harper College policy.

Important Dates

2023 Radiologic Technology Application Dates.....**October 1, 2022 – February 15, 2023**
January 15, 2023 is the “Early Admission” deadline for those who qualify.
Check the program web site for updated information on the application status.
Questions can be directed to le@harpercollege.edu

To be eligible to submit an application to the Radiologic Technology Program, you must have successfully taken the NLN exam. See details below.

Attend an Information Meeting (Mandatory)

- Learn more about the radiologic technology career and the Harper curriculum, admission standards and program participation requirements.
- Check the Harper web site at www.harpercollege.edu for the meeting schedule and reserve your seat online.
- You need to have attended an information meeting within the past year before submitting your program application to learn of the most current information/changes for that application cycle.

Submit College Application and Fee

- If you have not previously applied to the College, this is your first step.
- This application and fee can be submitted online at https://student-self-service.harpercollege.edu/prod/bwskalog.P_DisplLoginNon or in person.

Submit the Program Application with a Valid National League for Nursing (NLN) Pre-Admission RN Exam Score Report

- Submit your program application by going to the RAD web page at <https://www.harpercollege.edu/academics/health/radiologic-technology/admission-radtech-degree.php> within the time frame indicated above. **If you have previously been accepted into the**

Radiologic Technology Degree Program, you will need Coordinator approval to submit another application. Your Harper College Application must already be on file, you must have participated in a program information meeting within the past year, and you must attach a valid copy of your **NLN Pre Admission RN Exam** results showing that all minimums have been satisfied.

Valid NLN Pre-Admission RN Exam Report – You must satisfy **each** of the minimum percentile scores:

<i>Minimum Score</i>	<i>NLN Score Report</i>
Composite: 60 th percentile or higher	<p>Once scores are posted, you will want to check the section entitled RN Program Applicants to find your results.</p> <p>The Composite, Verbal, Math and Science percentile scores are listed under the RN Percentile Rank.</p>
Verbal: 40 th percentile or higher	
Science: 40 th percentile or higher	
Math: 40 th percentile or higher	

- You will find information on how to register for the NLN Pre-Entrance Exam on Harper’s Testing webpage: <https://www.harpercollege.edu/testing/limitedenrollment.php>
- There is a link to register under the NLN Exam Registration and Payment: www.nlntest.org
- Scores from an NLN Pre-Admission RN Test are valid for three years. (Refer to the chart later in this document for detailed information regarding expiration dates.)
- For details on how to interpret your NLN score report, please refer to the program web site.
- Resources for test preparation include the Review Guide for NLN-RN Pre-Entrance Exam, Third Edition available at the Harper Store, online and through retail bookstores; a course offered through Harper’s Continuing Education division titled: NLN Pre-Entrance Exam Preparation; McGraw-Hill’s NLN PAX-RN Prep app, Magoosh.com, PrepSTEP, formally the Learning Express Library (check the Harper College library for information), study guides for the ACT or SAT, youtube for vocabulary, and the Tutoring Center at Harper for math.
- **NLN Scores must be from testing completed after January 1, 2020.**

Submit Additional Documentation

Note: Official documents are those sent directly from the institution to Harper College.

Official High School Transcript OR GED Results – The final high school transcript must have the graduation date posted; the GED report must show passing scores.

- Applicants who have completed high school in another country need to submit a document-to-document evaluation of their high school transcript completed by Educational Credential Evaluators, INC (ECE) www.ece.org or World Education Services (WES) www.wes.org stating **U.S. Equivalence: High school diploma.**
Note: If chemistry completed in a foreign high school is being used to satisfy the chemistry admission requirement, a course-by-course evaluation will be necessary. WES does not provide course-by-course high school evaluations; ECE does.
- This high school transcript requirement can be waived if official documentation is provided demonstrating completion of the equivalent of a U.S. associate or higher degree.

Official College Transcripts – You will need to submit transcripts from other colleges attended to processing@harpercollege.edu if the document(s) show completion of coursework you think may fulfill course admission requirements or support coursework applicable to the Harper College Radiologic Technology Program.

- Requests can be made at the institution website or <https://www.studentclearinghouse.org/students/>.
- Foreign college transcripts must first be evaluated by World Education Services (wes.org) or Educational Credential Evaluators, INC (ece.org).
- To learn if/how credits from other colleges will transfer to Harper, applicants must have an official transcript sent from each college or university attended. Official transcripts will be evaluated as they are received, and students will receive an email to their Harper email account when they have been evaluated.

Program Prerequisites

Must be completed by the end of the semester in which the deadline falls

Harper Grade Point Average

- Current or previously enrolled Harper students must have a minimum 2.0 grade point average.

English Composition - ENG 101 at Harper College, or the equivalent from another college (as determined by the Harper College transcript evaluation).

- Must be completed with a grade of C or better.
- There is no expiration date on the English Composition course requirement.

Chemistry Course - At least two semesters of high school chemistry each with grades of C or better or at least one semester of college chemistry with a grade of C or better.

- Once college course work has been completed in chemistry, only college course work will be used to determine if the chemistry admission requirement has been fulfilled.
- The course must have a chemistry prefix or a chemistry course title to be considered; courses with titles such as “Science” or “Science and Technology” would not satisfy this requirement. Also, the course must have chemistry content as its focus to satisfy this chemistry admission requirement.
- If chemistry completed in a foreign high school is being used to satisfy the chemistry admission requirement, a course-by-course evaluation is necessary. World Education Services (wes.org) does not provide course-by-course high school evaluations; Educational Credential Evaluators, INC (ece.org) does.
- There is no expiration date on the chemistry course requirement.

Human Anatomy - BIO 260 (previously 160) at Harper College, or the equivalent from another college (as determined by the Harper College transcript evaluation).

- Must be completed with a grade of C or better.
- There is a five-year time limit on the Human Anatomy course requirement. Refer to the chart following this section for details on expiration dates.

Human Physiology - BIO 261 (previously 161) at Harper College, or the equivalent from another college (as determined by the Harper College transcript evaluation).

- Must be completed with a grade of C or better.
- There is a five-year time limit on the Human Physiology course requirement. Refer to the chart following this section for details on expiration dates.

Mathematics – MTH 101, 103, or any higher level math course at Harper College or the equivalent from another college (as determined by the Harper College transcript evaluation).

- Must be completed with a grade of C or better.
- There is no expiration date on the mathematics course requirement.

The following table lists admission requirements along with the time limits in place for 2023:

BIO 260 – ANATOMY (was 160)	Must be completed after January 1, 2018
BIO 261 – PHYSIOLOGY (was 161)	Must be completed after January 1, 2018
NLN TEST SCORES*	Must be completed after January 1, 2020

*National League for Nursing Entrance Exam Results

Re-entry Permission

- If you were previously enrolled in a Radiologic Technology degree program at Harper College or at another college, written approval from the Program Coordinator is required as part of the application file. Without this department approval, your file is incomplete.

Admission Decisions

PLEASE NOTE: Although satisfaction of admission requirements will result in an admission decision, it does not guarantee acceptance into the program.

- Ranking scores will be calculated based on a point system with a maximum of 80 points; **no points will be added to an admission score for coursework completed after the application deadline.** You can calculate your ranking score based on the following chart:

Factor	0 points	10 points	15 points	20 points
NLN Composite Percentile	60 – 69	70 – 79	80 – 89	90 – 99
NLN Verbal Percentile	40 – 49	50 – 69	70 – 89	90 – 99
BIO 260 (was 160)	C		B	A
BIO 261 (was 161)	C		B	A

- **Early Admission Option:** Applicants whose files are complete upon application may qualify for **Early Admission**. If qualified, we will send notification of acceptance by the email address provided on the application as well as to your Harper email. To be eligible for this option, applicants must meet specific conditions as follows:
 - Applicant must be a resident of Harper’s district or a community college district which does not offer a Radiologic Technology degree program and whose college district is a member of the CAREER consortium; and
 - The file must be complete—**all academic and document requirements must be satisfied**; and
 - The ranking score must be **55 or higher**; and
 - The applicant must submit the application and meet all admission requirements by **January 15, 2023**

There are **20 seats available for Early Admission**. Once the 20 seats are filled, and/or if applications are received after **January 15, 2023**, as well as any applications that do not meet all four of the above conditions, will be considered under the Standard Admission Option. There will be no exceptions to the above criteria.

- **Standard Admission Option:** (For seats remaining following Early Admission) The files of all applicants who have submitted their applications by the program deadline (and who were not

already accepted through Early Admission) will be reviewed by the Admission Selection Committee.

- This file review meeting will be held as soon as possible following the program deadline.
- A “final” minimum admission score will be determined based on the current pool of students, and those applicants whose ranking scores are at or above that minimum will be considered.
- Admission cannot be guaranteed, and will depend upon ranking score, residency, and number of seats available.
 - If there are more qualified applicants than space available, residency may be a factor in the Standard Admission process.
 - Permanent residents and residents of community college districts which do not offer a Radiologic Technology program **and** whose college districts are members of the CAREER consortium, who have satisfied the minimum admission score and applied by the application deadline will receive priority consideration of the Standard Admission process.
 - Residency is determined by the Registrar’s Office; the address on record with the College will be used by the Admission Selection Committee. Working in district does not constitute residency for limited enrollment selection purposes.
 - Provided a program is open past the published deadline, any qualified applicant that submits an application after that date will be considered after all qualified applicants who applied by deadline. Applications will continue to be accepted until the program is closed. Check the web site for information on the application status.
 - Depending on the number of qualified applicants eligible for admission when admission decisions are made, it is possible that contingency offers may be extended to applicants who are in the process of completing an admission requirement (except for the NLN minimum percentiles, which must be satisfied to submit a program application). **When/if contingency offers are extended, the contingent requirement(s) must be satisfied within the semester in which the deadline falls. There will be no contingent Early Admission offers.**
- It is not possible to predict the lowest ranking score an applicant will need to be accepted into a limited enrollment program. However, NLN scores in the 80’s and 90’s and A’s and B’s in BIO 260 (previously 160) and BIO 261 (previously 161) make applicants more competitive in the selection process.

Important Admission Notes

- It is the applicant’s responsibility to ensure that all requirements are met and all documentation is on file.
- Academic admission requirements must be met by the **end of the semester in which the deadline falls.**
- Accepted applicants must be 18 years of age before the program starts.
- All correspondence regarding your limited enrollment application will be sent to the email address you have provided on your application. It is your responsibility to see that your Personal Profile information is current. You can check your information on the Student Portal on the My Harper tab under Personal Profile. To update your email address (and/or mailing address and phone number), you will need to contact the One Stop Center, Building A, Room A250. Residency is determined by the mailing address on record with the College as of the program deadline date and will be used by the admission selection committee when admission decisions are made.
- Applicants should be aware that it may take up to three weeks for the College to receive transcript(s) from the sending institution(s). Official transcripts will be evaluated as they are received and students will receive an email to their Harper email account when they have been evaluated. Results can be

viewed online through the student portal. Transcript evaluations may take 2–3 weeks to process. Questions about transcript evaluations can be sent to evaluation@harpercollege.edu

- Applicants not accepted into the program who wish to be considered in the selection process for a future term **must attend a new information meeting and submit a new program application.**
- **Once your program application has been processed, you will be able to monitor your limited enrollment file online.** Go to harpercollege.edu and log into your **MyHarper Student Portal**; limited enrollment information can be found under the **Registration and Records** section.
- Qualified applicants not selected will be placed on a temporary wait list and identified as alternates. **Alternate lists do not carry over from one application cycle to the next**; therefore, alternates who are not admitted to a program will need to attend a new program information meeting and submit a new program application for a future program start.
- It is very important that you make financial aid preparations well in advance of any deadlines so that you know exactly what resources are available to you.
- Depending on the number of qualified applicants eligible for admission when admission decisions are made, it is possible that contingency offers may be extended to applicants who are in the process of completing an admission requirement (except for the NLN percentile minimums, which must be satisfied in order to submit a program application). **When/if contingency offers are extended, the contingent requirement(s) must be satisfied within the semester in which the deadline falls.** If the contingency is not met by the given date, the offer will be rescinded.
