

# Living Sustainable Lives

## What does it mean to live sustainable lives?

Together, Chemistry and Ethics allow us to think about *what* would be entailed in sustainable use of resources, from energy to lean water and food, as well as at the *why* we should care about each other, animals, the natural world, and even future generations.

**CHM103-HL2, CRN 64618**

Instructor: Julie Ellefson

**IAI P1 903L**

*MW 12:30pm-1:45pm*

*M 2:00pm-4:45pm*

**PHI115-HL2, CRN 64619**

Instructor: John Garcia

**IAI H4 904**

*W 2:00pm-3:15pm*

Total Credits: 7

*Learning Communities are two or more linked classes with a common group of students focusing on a central theme.*
