

## EARLY CHILDHOOD EDUCATION

### Associate in Applied Science A.A.S.: Option 2: Early Childhood Education Degree - Family Child Care

The 60 credit-hour curriculum is designed to provide students with the requisite skills and theoretical knowledge to work in a variety of facilities for young children as a teacher or director for half-day and full-day early childhood centers, a teacher's assistant in academic at-risk, special needs and public school classrooms, resource and referral agencies, before/after school care, recreational programs and related settings.

Upon completion of courses for the specialized area of Family Child Care, students need to complete an IL Gateways application to qualify for the Family Child Care Credential Level 4.

This sequenced degree plan is one of three options that students may pursue to earn the Early Childhood Education Associate in Applied Science (AAS) degree. While there are multiple specializations, **this particular degree can be awarded only once.**
