

## Requirements for Associate in Science Degree A.S.

These requirements apply to students who first enrolled for Fall 2018 or later. Students who first enrolled prior to Fall 2018 should obtain the appropriate sheet of requirements from a Student Development Center.

The Associate in Science degree is a transfer-oriented option which fulfills most general education requirements and the first two years of many (but not all) baccalaureate programs at four-year institutions. Students pursuing the Associate in Science degree are encouraged to seek the advice of a Student Development Faculty Counselor to determine the most appropriate or required course selections for their desired major and transfer institution.
