

## Community Innovation Fund Grant Program Funding Opportunity Announcement

The Harper College Educational Foundation is pleased to announce the *Community Innovation Fund Grant Program* created with funding from the Chicago Community Trust. This new grant program provides funding to non-profit organizations with missions that align with the equity, diversity, and economic goals and outcomes of the Community Innovation Fund Grant program.

### Program Goals and Outcomes

Through grantmaking, the Community Innovation Fund Grant (CIFG) program focuses on providing funding to organizations providing or planning projects, programs, activities, and services that align with and support one or more of the following goals and outcomes:

1. **Equity:** Provide equity in living, learning, teaching, and working environments; recognize everyone has a different starting point and individual needs; provide support and access to resources for all members of Harper’s community; and find solutions to remedy equity gaps.
2. **Diversity:** Build, strengthen, and maintain a respectful and safe community where inclusivity and open exchange of ideas are encouraged and supported; operate from an individual and collective awareness of the dynamics of social identity and inequality; and identify and remove unjust barriers that limit our realization of an inclusive community.
3. **Economic Mobility:** Improve the ability of underserved and marginalized individuals in Harper’s district communities to move up the economic ladder by creating intragenerational mobility through training and education that leads to in-demand, living-wage jobs in regional industries.

The Equity and Diversity Goals for this program are derived from Harper’s Equity and Diversity statements and support Harper’s efforts to reduce equity gaps by 20% by 2024.
