Purchase Orders  
(cont'd)  

Ex. VII-B3 Approve issuance of a purchase order to CLSI, Inc. for maintenance of the LRC Automation System, in the amount of $30,000.00.

Ex. VII-B4 Approve issuance of a purchase order to IBM Corporation, for the renewal of the rental of computer software, in the amount of $76,856.00.

Ex. VII-B5 Approve issuance of a purchase order to Linotype-Hell Company for a maintenance agreement covering the Linotronic Imagesetter, Postscript RIP and Paper/Film Processor, in the amount of $6,376.50.

Ex. VII-B6 Approve issuance of purchase orders to R.J. Gallah Co., Inc., for the various business insurance coverages of the College, in the total amount of $456,556.00.

Ex. VII-B8 Approve issuance of a no cost purchase order to North Shore Industrial Vending, Inc., for services and commissions to provide food and drink vending machines at the Northeast Center for a one-year period from July 1, 1992 through June 30, 1993.

Member Coste requested information on Exhibit VII-B6, the purchase order relating to insurance coverage. President Thompson agreed that this is a significant amount of money, but noted that this issue was discussed and agreed upon in the past. Harper has moved into a consortium of colleges, and is receiving a dividend distribution which will offset this amount by approximately $40,000. This could potentially increase as more schools come into the consortium. Vice President Manke stated that the premium is basically the same as last year's, even though Harper's property values have increased approximately $10 million over last year. Mr. Manke noted that the schools
Purchase Orders (cont'd)

in the consortium have a good track record of
low risk. When there is a potential risk
factor at Harper, a Continental Insurance
representative works with the College to
analyze the problems and suggests ways to
improve our loss record. The total premium
amount insures an $80 million facility as well
as liability coverages, data processing equip-
ment, library books, Workman's Compensation
coverage, etc.

Member Coste asked how many colleges are in
the consortium; Mr. Manke replied that there
are approximately five in the group. Member
Coste asked if each one pays on their own
experience. Mr. Manke answered that they do,
but the dividend is based on the total. He
noted that these colleges do not have high
claims, so that those in the consortium reap
the benefits of that.

Member Howard stated that this seems to be a
good arrangement based on our previous expe-ience. She asked if the foreign liability
covers our students studying abroad. Mr.
Manke responded that this will protect the
college if there are problems in while they
are in any foreign country.

Member Moats stated that because of the
current economic situation, a significant
reduction in cost could possibly be realized
by testing the marketplace for competitive
quotes. It was his hope that next year this
will go out for bids, and that the College
will explore the possibility of self-insuring
in some areas. Member Moats stated that he
will support the action this year, but will be
very reluctant to do so next year if it does
not go out for bids.

Member Coste asked if Harper could have gone
out for bids without putting our membership
in the consortium into jeopardy. Mr. Manke
replied that we could test the market our-
selves, but that the broker representing the
consortium does shop the market on our behalf.
The consortium has the minimum number of
schools needed to receive the dividend
concept.
Concerning Exhibit VII-B4, Member Moats asked if this was the same software the College has been renting, or if new software was included. Elena Pokot answered that most of it is the same, but some are new versions. The amount spent is approximately the same as last year. Barry Poulson noted that there is some increase related to the larger processor that was recently installed. Member Moats asked if the software could be purchased rather than rented. Ms. Pokot responded that some could be purchased, but it is more economical to rent. Member Moats asked to see the analysis at a later date.

Member Moats asked if the $30,000.00 for maintenance on the Learning Resources Center automation system (Exhibit VII-B3) represented an annual fee. Al Dunikoski explained that this fee includes the repair of 54 terminals if needed, the main computer, on-line diagnostics and repair, and all parts. Dan Mooney of TSI has stated that this is a very good maintenance agreement. Member Moats asked if this was for both hardware and software maintenance. Mr. Dunikoski replied that because of the on-line diagnostics, both are included. This guarantees a one-hour response from the company for on-line assistance, and a 24-hour response time for an on-site maintenance person. He noted that this maintenance agreement is a required part of the contract for the entire automation system. Mr. Manke stated that contract was previously approved, but the Board must approve the expenditure each year. Member Moats noted that some maintenance contracts are not cost effective, and it was his hope that this has been studied sufficiently.

Upon roll call, the vote was as follows:

Ayes: Members Bakas, Barton, Born, Coste, Howard, Moats, and Norwood

Motion carried.

Member Coste moved, Member Bakas seconded, approval of the no cost purchase order to Lyng Canteen Service Co. for the continuation of

vending services on the Palatine campus from July 1, 1992 through June 30, 1992 as outlined in Exhibit VII-B7 (attached to the minutes in the Board of Trustees' Official Book of Minutes).

Member Howard asked if the College was satisfied with the services being provided by this vendor. Mr. Manke replied that this bidder was required to replace all of the machines with new machines, and that problems with refunding money are minimal. This is the last year of the contract, and it will be re-bid next year.

Member Coste asked what the College receives from this agreement. Mr. Manke replied that Harper receives a commission based on the product and the amount sold, as well as other variables. This amounts to revenue of approximately $60-70,000 per year. Mr. Vic Berner stated that that is an accurate figure.

Member Coste asked if the College keeps aluminum for recycling; Mr. Manke answered that we do.

Member Howard asked if the references for the trash removal company had been checked. There is a tremendous spread and a large number of bids. Mr. Manke responded that this is a new company which is trying to get a foothold in this area.

Upon roll call, the vote was as follows:

Ayes: Members Bakas, Born, Howard, Moats, and Norwood

Nays: None

Members Barton and Coste abstained.

Motion carried.

NEW BUSINESS  
Personnel Actions

Member Barton moved, Member Bakas seconded, the approval of the personnel actions as listed in Exhibit VIII-A1 (attached to the minutes in the Board of Trustees' Official Book of Minutes).

President Thompson commented that there are a number of faculty positions which were approved a few months ago, and are hires that

Harper has been looking forward to. Member Howard noted that she was very impressed with the qualifications of these people.

Member Coste asked if the appointment of James Zabout in the OIS Department was a replacement of one of the consultants. Elena Pokot responded that this is a new person who was hired to replace a Harper employee who left in February. President Thompson stated that when the Vice President of Information Systems comes on board July 6, that person will begin the search process to find individuals to fill the positions now being held by the consultants. Member Coste asked why this particular position was filled now instead of at that time also. President Thompson responded that it is a different level position. Ms. Pokot answered that Mr. Zabout reports to her, and she has consulted with Dave McShane about the appointment.
