OTHER BUSINESS
Ad Hoc Football Committee

Member Ley noted that all Board members have received a copy of the minutes and final recommendation from the Ad Hoc Committee. He reminded Board members that acceptance of the recommendation will mean that these criteria regarding the football issue are to be followed in December 1997 by the next Board of Trustees.

He explained that the final recommendation consists of four essential criteria:

1. Financial issue - On a per capita basis, football is not any more expensive than the average intercollegiate athletic program at the College and, as a result, there should not be an external subsidy program created for its continuance. Although a boosters program would be very helpful and beneficial, this should not be criteria for continuance.

2. Competition - Based on recommendations from various members of the athletic department, there need to be at least three other conference schools that have football programs in order to have a viable schedule. Currently there are three participating colleges: Joliet, Rock Valley and Grand Rapids. Additionally, there need to be at least two Iowa community colleges to play against in order to fill out the program.

3. Enrollment - At least 60 football players have to be enrolled at the start of the season to have a viable program. In addition, the College must follow
established recruiting guidelines which state that: there must be a minimum of 30 participants from within the district (the conference rules' definition of an "in-district football player" differs from the definition of an "in-district student" for tuition purposes). The committee also recommends that there be no out-of-state athletes allowed into the program other than those who are currently enrolled in the College and will complete their second year in the program. This is a variance from the conference rules.

4. Eligibility requirements - After reviewing the NJCAA rules and the N4C conference rules, the committee recommends that the College follow the existing rules which require a 2.0 GPA for eligibility.

Member Ley stated that there is a great deal of detail that accompanies the recommendation, but he condensed it for the meeting.

There was discussion as to whether the football program has been following the eligibility rules. Coach Eliasik stated that Harper guidelines have been much more strict than the conference guidelines.

Chair O'Reilly thanked the Ad Hoc Committee members for their time and effort. Board members agreed that the committee had done a very thorough study of the football issue.

Member Ley moved, Member Kolze seconded, to accept the Ad Hoc Committee recommendation regarding the football program.

There was discussion as to what would happen if another conference school drops their football program. Based on the advice of the athletic staff, Member Ley stated that if one school drops out and another one is not added, there is a strong possibility that this could eliminate the Harper football program.

Upon roll call, the vote was as follows:

PRESIDENT'S REPORT

Dr. Thompson announced that Judy Thorson has been appointed to serve on the ICCB Finance Committee for a three-year term. He congratulated Ms. Thorson.

Dr. Thompson stated that representative Carol Pankow would like to meet with the Board to exchange ideas at the August 28 meeting. She will be invited to attend a 5:00 p.m. dinner prior to the Board meeting.

Dr. Thompson stated that the College has received a very significant TRIO grant. He explained that TRIO grants are for institutions that have a certain percentage of minority or disadvantaged students. Harper has not qualified in the past. The grant will be for $180,000 the first year, with a four- or five-year cycle. This could be a $1M grant, one of the largest grants ever for Harper College. It is a student support service grant and will focus on students with disabilities and economically disadvantaged students. The grant was written by Sally Griffith. The College will use the grant to try to improve retention, graduation and transfer rates of our students. He mentioned that Harper also has a grant from St. Paul Technical College's Midwest Center for Post-Secondary Outreach which is also for the Center for Students with Disabilities. This is an award of $91,000 for the first year, with a total of $271,000 over four years. Several people collaborated on this effort, including Tom Thompson and others in the Student
Dr. Thompson noted that there has been much speculation about his status as President of William Rainey Harper College. He stated that he has not asked the Board of Trustees for an extension of his current contract which expires June 30, 1998. He has chosen to explore other challenging employment opportunities in the year ahead. At the end of his contract he will have served as President for ten years and feels that it is time for a change -- for him as well as for the College. He reflected on the achievement of his goals at Harper College during the past nine years. These include: enhanced relationships with the business community with the addition of Corporate Services; reorganization of the campus' computing operation under the Vice President for Information Systems and the subsequent development of a multi-year technology plan; upcoming capital funding of approximately $7M for new multi-use facilities due to active involvement along with the Board of Trustees in legislative advocacy. There have been many other projects built and renovated with local funds which have greatly enhanced the learning environment at Harper. These projects include Building S, Building L, Building V; major renovations to Buildings F and J; remodeling of Buildings U and T and the new Building I mega labs; purchase of the Northeast Center; and athletic fields for softball and baseball. The College has received recognition over the years in both state and national arenas for excellence in workforce development, tech prep, teaching and learning, planning, student development programs and a variety of community service programs. He noted that he is proud to have shared in these achievements. They reflect the work of an industrious, creative, dedicated staff and faculty, and indicate the healthy state of Harper College. He added that by making this announcement now, it will provide adequate time for the Board of Trustees to seek a successor through a comprehensive and diligent search process. The President noted that he looks back with
great satisfaction on what Harper has grown to be. He looks forward to continuing to build strong and positive relationships during the remainder of his tenure. He thanked the Board for their understanding and their support.

Chair O'Reilly stated that moments like this are very difficult for everyone. She added that President Thompson deserves many accolades for his accomplishments. The Board looks forward to many months ahead of further progress, along with additional grants and awards.

Member Kolze stated that the Board has had the opportunity to review search firms in anticipation of this decision.

Member Kolze moved, Member Howard seconded, approval of the proposal from the search firm of Witt, Kieffer, Ford, Hadelman, Lloyd to conduct a presidential search and authorization for the Chair of the Board of Trustees, with the guidance of legal counsel, to complete the details of the employment contract with this firm.

Upon roll call, the vote was as follows:

Ayes: Members Barton, Gillette, Hess, Howard, Kolze, Ley and O'Reilly
Nays: None

Motion carried.

Member Gillette asked if there should be a dollar amount. Chair O'Reilly responded that the amount will need to be approved when the contract is received. Steve Catlin will serve as Chair of the Search Committee which will begin meeting on August 7. Each of the employee groups will be contacted very shortly regarding representation on the committee and more information will be forthcoming.

**ADJOURNMENT:** Member Barton moved, Member Ley seconded, that the meeting be adjourned. In a voice vote, the motion carried at 9:00 p.m.
