PRESENTATION

Chair Dowell invited Laurie Stone to present the Community Outreach Report.

Community Outreach Report

Ms. Stone began by explaining that the public Harper serves recognizes that for the past 50 years it has enriched and shaped the 23 communities it serves. During this time, the College has conferred nearly 90,000 credentials. Harper has been an important contributor to the continued economic development in the region and an institution that provides continuing education. Affordable tuition has provided opportunities for students to save up to \$59,000 in tuition if a student completes their first two years of a bachelor's degree at Harper. Additionally, approximately half of district high school graduates enroll at Harper at some point in their post-secondary experience. Further, due to the generosity of the community and others, Harper has awarded a numerous scholarships and grants.

Ms. Stone further shared that the community recognizes the fiscal responsibility of Harper College as the tax levy collected by the College ranks in the lowest half of all Illinois community colleges and that the College is one of four Illinois community colleges with an Aaa bond rating from Moody's. This fiscal responsibility provides an opportunity for the community to invest in the College without raising taxes by retiring old bonds. These bonds account for \$23 in property taxes for a \$250,000 home. Issuing new bonds at the same level will provide funding for improvement while keeping taxes the same for local property taxpayers. An estimated \$180 million could be raised.

Two former Foundation presidents, Tom Wischhusen and Kathy Gilmer, led a Community Task Force. Ms. Stone acknowledge their attendance and thanked them for the work they had done thus far and will be continuing to do. The Task Force engaged citizens of the 23 communities it serves to determine what they found to be important to them as Harper plans for the future. Community input sessions were held with community leaders at Harper where Ms. Stone and Dr. Ender presented aspects of the master plan and possible opportunities for the future. The input sessions convened groups of people from different parts of the District, mayors and village managers, and members of local chambers of commerce. In addition to the input sessions, the community responded to online feedback forms and public surveys.

The Task Force reviewed all data and determined three priorities. The first priority is driven by economic opportunity in the community and region by providing four-year degrees in a University Center that would be an economic development hub for entrepreneurial studies and a place to encourage out-of-the-box thinking. The second priority, to educate for today's high tech jobs, led the task force to see the connection to modernize facilities and curriculum in accounting, business, education, and technology, along with expanding the health careers and manufacturing facilities. The last priority is to maintain and improve the campus infrastructure. The community understands the importance of maintaining the campus infrastructure as that is what they do with their own homes. The three priorities total \$180 million. The community realizes that Harper is preparing for the future by being fiscally responsible and developing a plan for achieving a joint vision for what is best for Harper and the community overall. The community has indicated broad support for the three priorities without raising taxes.

Ms. Stone described the next steps for the Board which include the Board formally voting on both the Task Force Report and placing a referendum question on the November 6, ballot.

Chair Dowell thanked Ms. Stone, Ms. Gilmer and Mr. Wischhusen for their time, dedication and commitment to the project. Additionally, he thanked Ms. Kolbusz who was also very involved.

STUDENT TRUSTEE REPORT

Student Trustee Mal reported he visited Cambridge University in the United Kingdom and met with the president of Cambridge's Student Union Leaders, Ms. Sofia Ropek. During the meeting he was presented with a Gown of Honor and they discussed the student voice and issues for students. He in turn presented Ms. Ropek the book *Harper College The First 50 Years* and invited the leaders from Cambridge University to visit Harper.

Additionally, Student Trustee Mal mentioned the Harper College HOPE Giving Circle's recently awarded \$10,000 scholarships to three Harper students, the highest number of recipients since the scholarship was created in 2016. Further, students are excited about the opening of Building M.

He also stated he is continuously reaching out to Harper's student leaders from the different clubs and organization to ensure everyone is connected. Student leaders will stay connected through a digital application called GroupMe. He identified leadership qualities needed for student leaders to serve as a positive role model for their peers. These include providing community service opportunities, planning leadership conferences, critical thinking, cooperative learning activities, conferences, kindness challenges, and service learning projects. These needed to be developed and nurtured.

Lastly, Harper students are content with the food options on campus, but the need for vegetarian or vegan options is something the Student Government Association will look at this coming year.

FACULTY SENATE
PRESIDENT'S REPORT

Faculty Senate President Richmond reflected on where Harper was approximately 16 years ago when the faculty was preparing to go on strike. During a meeting earlier in the week a colleague reminded the faculty about the climate and the environment during this time and how different it is now. Mr. Richmond recognized and thanked the Board and senior leadership for the tremendous amount of work that has occurred to change the environment. He further acknowledged Ms. Stone, a former Board member and chair, as being critical to advancing the environment and changes in senior leadership who made developing relationships with faculty and employee groups a priority. The faculty are looking forward to the future and are confident that the bridges will continue to grow. Lastly, the faculty are committed to working to further the goals in 2018 and beyond.

PRESIDENT'S REPORT

Dr. Ender ask Ms. Franks, Manager of Fast Track, to give an overview of the Fast Track program. He also acknowledge that if the College could duplicate the Fast Track cohort experience with other programs, retention, persistence and graduation rates would be higher.

Fast Track

Ms. Franks thanked the Board for the opportunity to present information about Fast Track and to highlight a student success story. She began by providing an overview of the Fast Track program, which is a part-time accelerated degree and certificate program designed for busy adults who want to complete a credential while balancing their education, work, and family lives. Currently, there are more than 300 students in the program with 14 active cohorts. In July 2018, 131 students earned 184 credentials. The Fast Track program includes one degree and three certificates. The certificates stack into corresponding associate of applied science degrees. Some certificates can be earned in as little as nine months, one of which is the Human Resource Management certificate. The Business Administration degree can be earned in two years and eight months as a part-time student. All programs are financial aid eligible.

Admission to the Fast Track program requires a meeting with an academic counselor/advisor to develop an education plan that is referred to as a program grid for Fast Track students. The program grid provides the meeting dates for all classes. This counselor/advisor then becomes an advocate for the student and meets with the student regularly throughout their time in the program. Additionally, students are required to attend an orientation night that is consistent with a first year seminar and focuses on student success and career specific information. Most courses are six weeks in length and blended (online with classroom instruction) in an accelerated format, which works best for busy adult students who want to move quickly through a part-

time program. Faculty who are new to teaching in the Fast Track format attend a professional development course.

Ms. Franks invited Ms. Hartman, Executive Assistant to the Chief Human Resource Officer, Roger Spayer to share her story. Ms. Hartman graduated Magna Cum Laude, with an A.A.S. in Business Administration and two Management certificates in 2015 via Fast Track. While in the program she was on both the Dean's and President's list, and a member of Kappa Beta Delta, and Phi Theta Kappa. Ms. Hartman joined Harper as an employee in 2017 and she is now working on her bachelor's degree at DePaul University through the University Center.

Ms. Hartman thanked Ms. Franks and shared that her experience started with receiving a post card advertising an information session to earn an Associate's Degree at Harper College through the Fast Track Program. Finishing her degree had always been a dream of hers. She convinced herself to attend an information session knowing there was no chance that she would sign up for the program as she was working full-time with children at home. However, once at the information session she registered for the Fast Track program. She was relieved that Harper accepted her previous college credits and that the tuition was affordable.

Prior to attending orientation she once again found herself doubting her ability to complete the program. During orientation she found herself wanting to be a part of the cohort. While in the program life became exceptionally challenging but because she enjoyed coming to class, her classmates, the staff, and faculty, Ms. Hartman persisted. She reflected that Ms. Franks was instrumental in her journey as she always thought of her as the "den mother" to the Fast Track students, as she was personally invested in each student. The cohort format is conducive for success as the group acts much like a family. They hold each other accountable for their progress through the program and support each other along the way to graduation.

Ms. Hartman reflected that while progressing through the degree program, she also achieved mini victories by earning management certificates that kept her momentum going and served as valuable career credentials. At Ms. Franks' recommendation, she earned a Human Resources Management certificate that allowed her to change industries and extended her Harper journey by becoming an employee in the Human Resources Department. Lastly, she is now thankful for the opportunity to be able to earn a bachelor's degree at the University Center on Harper's campus through DePaul University.

Dr. Ender continued with the President's report and shared this past week had been a time for the employee community to come together during orientation week. During the all-campus meeting four students shared very compelling stories. First a veteran student who is now the

president of the Veterans Association shared his story. Followed by a daughter of an employee who reflected that initially she was not interested in coming to Harper and now acknowledged that it would have been a mistake had she chosen to follow a different path. Finally, a mother and daughter shared their emotional stories. Through these stories it helped everyone focus on helping people understand that Harper is not just buildings. Each employee contributes to the student experience in different ways and it is important to understand that "We are Harper" and we have responsibility to all students.

Dr. Ender reported the first Promise student who graduated early from Barrington High School will start in fall.

Dr. Ender thanked the Board members and the campus for quickly responding to the news on Friday, August 10, 2018 that Governor Rauner would be visiting campus on Monday, August 13, 2018 to sign two educational bills. During the visit, Governor Rauner toured Building M where he heard about the partnership with the Palatine Park District and Northwest Community Healthcare. Additionally, Governor Rauner heard about the need for funds from the Capital Development Board in order to assist in the financing of the Canning Center renovation.

Lastly, Dr. Ender reported enrollment is currently behind last fall's level, but has improved in recent weeks. There is a plan to review the differences between enrollment patterns of students with an assigned academic advisor or counselor to those who do not have an assigned academic advisor or counselor.

NEW BUSINESS

Public Hearing of the Budget for Fiscal Year 2018-2019 and Budget Adoption

Chair Dowell closed the regular session and opened the public hearing for the Budget for Fiscal Year 2018-2019 at 6:45 p.m.

Chair Dowell asked Dr. Ally to present the proposed budget for Fiscal Year 2018-2019.

Dr. Ally presented the proposed budget for Harper College's 2018-2019 fiscal year. Dr. Ally explained that our budget has been on public display in the Business Office since June 21 and this public hearing was advertised in the *Daily Herald*.

Dr. Ally reviewed the tax-capped funds, which represent the main operating funds of the College. He also reviewed all other funds. He pointed out the three main sources of revenue, local government (property taxes) and tuition and fees represent 96% of the budget, and state government is only 2%, which has been declining steadily over time.

On the expenditure side, this is relatively consistent with what has been presented in the past; salaries and benefits combined are about 78% of the budget and that leaves 22% for everything else such as supplies and materials, capital outlay, utilities, etc. The budget for capital projects was also reviewed.

At the conclusion of Dr. Ally's budget presentation, Chair Dowell asked if there were any persons who wished to speak regarding the budget. There were no public comments.

Chair Dowell closed the Budget Hearing and re-convened the Board meeting at 6:52 p.m.

Member Johnson moved, Member Kelley seconded, to approve the budget for Fiscal Year 2018-2019, as outlined in Exhibit XI-A (attached to the minutes in the Board of Trustees' Official Book of Minutes).

Upon roll call, the vote was as follows:
