Harper doesn’t feel like a “junior” college – feels like a “real college”
Always want better performance, meet higher benchmark
People think campus is beautiful, takes a lot to impress this neighborhood
One thing hasn’t changed - walk from parking lot is “brutal” in snow/sleet
Need better image as you arrive - don’t feel like you can reach out and grab it
Like to see a welcome or information center, Building A is set so far back
Logistically, campus doesn’t work – can’t move from building to building
College is very student-oriented - architecture/open spaces do not reflect this
President/administration should be in the center, easy to visit
College has to make up its mind, do we want students to hang out?
Growing diversity – needs to be part of the culture of the campus
How to make campus inviting so students don’t drive home in middle of day?
Need departmental homes for all faculty-teach all over campus, dispersed
Paths to walk on are really cold, with the “worst angles ever” - need a quad!
Arts can be window to our community, celebrate local history/local culture
Food is important to bring people together – students want more choices
Harper = Green Leader: Midwest forest/prairie ecology, rain gardens, green roofs
“Change the outer layer of the campus”- more green space, less parking area
