Building Technology and Professional Capacity
To Achieve Harper College’s Student Completion Agenda

Title III Grant
2017 Update
Overview

1. Comprehensive Assessment Tools
2. Academic Plan Integration
3. New Student Portal
4. Case Management System
5. Predictive Analytics System
Implemented tools and enhanced methods that provide a holistic view of a student enabling the development of personalized academic and success plans.

New: Student Intake Form

New: Focus2 Career Assessment Tool

New: Multiple Measures for Academic Placement
Integrated the academic plan into key systems to allow students to self-monitor progress and to enhance their scheduling capabilities using registration optimization software.
Integrated the academic plan into key systems to allow students to self monitor progress and to enhance their scheduling capabilities using registration optimization software.
Implemented the new **My Harper Student Portal** to centralize all the information students need in one integrated space.

**What’s my Goal?**
- How far along am I?
- Am I ‘On-Track’?
- Who is my point person?
Developed the methodology and the systems to support the new case management advising model for over 5,000 students.

Starfish System Analysis & Reconfiguration

Filter caseload among a variety of characteristics
Implemented the **Illume predictive analytics** system that will be used to strategically identify students for early alert monitoring, pro-active nudging and to better inform case managers.
In Closing

Harper’s Title III project is exceptionally well-integrated in its institutional strategies and serves as a key focus of the College’s daily operations.

---

William Rainey Harper College is a model Title III institution.

- Paul T. Bucci & Associates, March 2017
