Forward Progress... Degree Success

On our cover: Forward Progress... Degree Success

Richie Stobart. True progress rarely travels in a straight path. For example, Richie Stobart began college as a business major before deciding to become an architect. "I enrolled at Harper College to fulfill requirements prior to entering the University of Illinois architecture program."

While at Harper, Richie again experienced a change of mind. "I went back to my original choice to major in business." After spending spring and summer semesters at Harper, Richie transferred to Marquette University.

"I had a great experience at Harper. My coursework was challenging and my teachers were focused on me as a student. Ronda Reed, my math professor, helped fit my homework assignments around my work schedule, even accepting my homework early. My marketing professor, Maria Coons, was also highly knowledgeable. I enjoyed her Principles of Marketing class very much."

Now majoring in finance at Marquette, Richie looks forward to the future and is grateful for the successful start his Harper experience provided. "I recommend Harper to anyone who wants to explore where their future can take them."

FlexEdSM Options

Online Courses

A variety of courses are now available to students via the Web. Not only will you have the flexibility of class scheduling, you may also have the opportunity to communicate with your instructor and classmates via e-mail or through discussion forums. If you have access to a computer with specific hardware and software requirements, a modem, and online access through an Internet Service Provider (ISP), then Internet courses may be the perfect option for you.

Is online learning for you? Find out.

Visit harpercollege.edu/doit/dlinfo/mainMenu.html

Telecourses

Harper offers a complete range of courses from economics to psychology that may be viewed on cable TV within the Harper district area. Each telecourse has a mandatory, on-campus orientation session in order to give you an introduction to the instructor and course expectations. Any missed classes can be viewed at the main campus Library or select area libraries. A taped set of classes may also be rented from the Bookstore for a fee. (As of the printing of this course schedule, some residents of Arlington Heights may not receive Harper cable broadcasts. Please check with your local cable provider to ensure accessibility.)

TeleWeb Courses

Several courses are available as a combination of both telecourse and online learning. Students enrolled in a teleweb course attend class by watching cable TV broadcasts within the Harper district area or by viewing videotapes at home, at the Harper Library, or in select public libraries. (As of the printing of this course schedule, some residents of Arlington Heights may not receive Harper cable broadcasts. Please check with your local cable provider to ensure accessibility.) Course assignments are accessed via the Web. Students interact with peers/faculty and submit course work to their instructor via several Internet-based communication tools.

Open Entry Classes

Harper has designed this unique class format to meet the needs of many students. Maybe you are unable to attend regularly scheduled classes. Or you want to finish the course work more quickly or you're anxious to start, but the course has already begun. We just require a one-hour orientation, where the instructor will show you around the lab, hand out homework assignments and answer any questions. Open Entry instructors are available for guidance during posted office hours. Open Entry classes are offered in AutoCAD and Computer Information Systems. In addition, all Adult Educational Development classes are open entry.

Late Start Classes

The name says it all. Late Start classes begin after the normal start date of the semester. So if you've missed our scheduled registration, look through this schedule or check out our Web site at harpercollege.edu for Late Start Classes.
