1996

Profile

William Rainey Harper College

January 1996

Dear Members of the Harper Community:

The 1996 *Profile* is designed to provide you with facts and figures about Harper College for your own information and to communicate to others.

The student population is served by 220 faculty, 104 professional/technical, 278 classified, 47 supervisory/confidential, 81 custodial and maintenance and 37 administrative staff. A part-time faculty of 600 supplements our teaching staff. The College is governed by a Board of Trustees composed of seven members elected by the community and a student trustee elected by the students. Everyone at Harper is committed to providing quality instruction and services that respond to the needs of the residents and businesses of the district.

We hope that this publication will give you a good overview and answer many of your questions. If you have suggestions for improvement of this resource, please contact the Community Relations Department, 847/925-6279.

Sincerely,

Paul N. Thompson
President

Harper Highlights

- William Rainey Harper College was founded on March 27, 1965. The College opened its doors to students in the fall of 1967.
- The College is named after Dr. William Rainey Harper, first president of the University of Chicago and known as the father of the two-year college.
- The College is governed by an elected Board of Trustees composed of seven members and a student trustee elected by the students.
- The College encompasses 23 communities with an area of about 200 square miles and a population of 511,000.
- The campus in Palatine has 18 buildings on a total area of 200 acres.
- The tuition rate is \$40 per credit hour.
- Fall enrollment is approximately 24,000 students.
- Approximately 30 percent of the annual high school graduates in the district who go on to college attend Harper.
- More than 350,000 different students have attended Harper since it was founded.
- Approximately 83 percent of the College faculty hold postgraduate degrees.
- The Harper College Learning Resources Center has 110,955 volumes, an additional 60,000 microforms and about 831 periodical titles. The media collection of 126,537 items consists of videotapes, films, audiotapes, slides, filmstrips and other formats. **The library has a computerized, on-line catalog which can be accessed through strategically placed terminals on the first and second floors of the LRC.** The Library also provides a CD Rom information network, which gives access to several subject indexes. Through on-line searching of a national data base, the LRC has access to academic institutions nationwide, as well as to those in Illinois.
- The College operates extension centers in Barrington, Buffalo Grove, Elk Grove Village, Hoffman Estates, Palatine and Prospect Heights. The Northeast Center in Prospect Heights is the largest of these centers.
- The College offers over 70 academic scholarships each year covering tuition and fees as well as various financial grants sponsored by individuals, organizations and companies in the area which range from \$100 to \$8,000.

Introduction

William Rainey Harper College is a two-year public community college which was founded in 1965 and officially opened classes the fall of 1967. The College offers both the associate in arts and associate in science degrees as well as an associate in applied science degree in 60 career areas. In addition, there are more than 15 one-year certificate programs which prepare men and women of all ages for immediate employment. There are numerous other programs and services such as continuing education, the CAD and Manufacturing Center, business management seminars, cultural affairs, women's program, adult educational development, support services for students with disabilities and community counseling services.

The spirit of Harper College is reflected in its name. William Rainey Harper was a scholar, teacher, writer and administrator who devoted his life to the pursuit of excellence in education. As the first president of the University of Chicago, Dr. Harper initiated programs to bring education into the community for those who could not become resident students at a university. This concept was the basis for the establishment of the community college system in the United States and the eventual founding of William Rainey Harper College.

In 1967, Harper College opened with an enrollment of about 1,700 students. Today the College's enrollment stands at approximately 24,000 students of all ages participating in degree credit, continuing education and extension courses at the Harper campus or at other locations throughout the district.

The College has enrolled more than 350,000 students dating back to 1967 when the first classes were held. Many more area residents have come to the campus to attend forums, concerts, and cultural and athletic events.

For the many residents in the College community, Harper provides the opportunity for completing the first two years of a bachelor's degree, developing a career, learning new skills, retooling for career advancement or change, enriching the quality of one's life, or simply enjoying the discovery of new knowledge. In meeting the varied and changing educational needs of the community, Harper College continues to be a dynamic institution, a community college in the truest sense of the term.

Mission Statement

William Rainey Harper College is a comprehensive community college dedicated to providing excellent education at a reasonable cost, promoting personal growth, enriching the community and meeting the needs of a changing world.

In the broad range of its offerings, Harper College will

- educate students to assume an active, productive and meaningful role in a free and changing society.
- provide students with the knowledge and experiences required to develop a system of values and the ability to contend with difficult moral choices.
- encourage student success.
- enrich the cultural and economic life of the community.
- lead in individual and community development.
- enable the students to recognize the interrelationships of life, education and work.

Illinois Community Colleges*

Illinois community colleges comprise a dynamic system of 49 colleges whose 40 districts encompass the entire state of Illinois. While the individual community college districts vary in terms of demographics, resources and education priorities, their status as locally governed institutions allows them to address varying local needs uniquely. A major strength of the system is that colleges also work collaboratively to address regional and statewide needs in an effective and efficient manner.

Illinois community college students are diverse. Approximately 29 percent are minorities comprising nearly two-thirds of all minorities in public higher education. Nearly 10,000 persons with disabilities enroll in community colleges and 38,000 students with limited English proficiency are served annually. The average age of a community college student is 30. Seventy percent of community college students attend part-time, and many work while attending college.

Vision Statement

It has been said, "Do not follow where the path may lead. Go instead where there is no path and leave a trail." The community college system must continue to be the educational system that "go(es) instead where there is no path and leave(s) a trail." It needs to stretch the minds of its faculty, administrators, trustees, presidents and students so that there is more room for acceptance and development of new ideas and knowledge.

Accordingly, the community college system envisions the community college as a place where:

teachers take pride in teaching, students take pride in learning and the focus is quality and excellence;

a passionate thirst for new knowledge is instilled, both in students and in staff;

society's values are shaped and revised, and leadership, integrity, self-discipline, self-motivation, humanity, dignity, pride and caring are purposefully taught and modeled;

the experiences of students are directed toward developing each of them as informed, responsible and contributing citizens and employees;

the responsibility for accountability is accepted eagerly;

expressions and manifestations of bigotry, prejudice and denigration of character are not tolerated;

no individual is considered to be inherently more important than another, and each is provided with an equal opportunity to achieve success;

actions are focused on interdependence, collaboration and inclusiveness - "community" in its broadest sense;

communities are assisted in identifying and solving problems such as substance abuse, crime, child abuse and a variety of conditions that undermine and destroy their very fiber; and

the boundaries of our communities are extended to countries around the world, and international interdependence is nurtured.

Guided by this vision and strengthened by this plan, the Illinois community college system, through its locally autonomous colleges, will provide our state and nation with their most productive supply of educated citizens.

*Reprinted from general information published by the Illinois Community College Board.

**State Community
College System**

The Illinois Community College Board

The Illinois Community College Board consists of 11 members appointed by the Governor and one student member selected by the recognized Student Advisory Committee. Board members are appointed at large for six-year terms. The Chairman of the Board is selected by the Governor. The statutory responsibilities of the Board are planning and coordinating the programs and activities of the public community colleges. All colleges are governed by local boards of trustees.

Academic Programs

Transfer Programs

Harper College provides programs of study allowing students to complete requirements for the first two years of a baccalaureate degree. Harper defines these programs as transfer programs. Some examples of major fields of study are as follows:

Art
Biological Sciences
Business Administration
Communications
Computer Science
Education
Engineering

Foreign Languages
Health Education
Liberal Arts
Music
Physical Education
Science and Mathematics
Social Science

Career Programs

Harper College offers career/vocational programs. The sequence of courses is designed for individuals who desire to pursue a specific curriculum to prepare them for a particular career. Both associate degree and certificate programs are offered except where indicated.

Continuing Education Programs

Continuing Education programs are an integral part of the Harper College comprehensive educational effort. They are designed to serve as lifelong learning opportunities. Programs are aimed at meeting the educational, cultural and training needs of individuals, business and industry, municipalities, professional and occupational groups. The wide range of offerings cover management training, technical training, psychological and health education needs as well as fine arts, industrial arts, home economics, horticulture and a variety of academic courses.

Each academic division offers related Continuing Education courses. The Office of Community and Program Services also offers Continuing Education courses and provides a Central Information Specialist to answer Continuing Education questions on the main campus, as well as those related to extension sites.

Facts about Harper Students

- The average age of Harper students is 33.
- Sixty-one percent of the students are women.
- Sixty-one percent of degree credit Harper students work full time while attending Harper, many of them in semi-professional or technical positions.
- Eighteen percent of Harper's degree credit students have a bachelor's degree or higher; in continuing education, 46 percent have already achieved a bachelor's degree or higher.
- Approximately one in three high school graduates in the district attend Harper within three years of leaving high school.
- Sixty-one percent of Harper's career students become employed full time upon leaving Harper.
- Eventually 78 percent of Harper's baccalaureate oriented alumni will transfer to another college and 43 percent will achieve a bachelor's degree.
- About one out of three full-time students will complete an associate degree at Harper.
- The average income of degree credit students who are independent is about \$38,000, the average income of parents of dependent students is \$65,000, and the average income of continuing education students is \$57,000.
- Fifty-eight percent of the jobs career alumni hold are closely related to their major field at Harper.
- Sixty-eight percent of Harper career alumni are working within the district, and only five and one half percent are working close to the Chicago Loop.
- More than two-thirds of Harper's degree credit students are part-time students.
- More than half of the students are persuaded to attend Harper by three principal factors. These are recommendations of friends and relatives; ability to enroll in a specific course or program desired; and Harper's convenience.

¹Full-time Equivalent (FTE) is the number of 15-credit hour loads represented by the total number of credit hours for which students are enrolled.

College Finances

Funding for Harper

Harper College operating revenue (Education and Building Funds) comes from three major sources: student tuition, local taxes and state apportionment.

Student Tuition

The Board of Trustees annually establishes tuition for credit courses which is limited by law to one-third of the per capita cost. The current resident tuition is \$40 per semester hour.

Tuition and fees for courses of a non-credit nature (courses which do not lead to a state-approved degree or certificate) cover the cost of instruction. No state or local tax monies are used to support these courses.

For 1995-96, tuition revenue is expected to be \$10,381,723 which represents 20.53 percent of Harper College's total operating fund income.

Local Taxes

All real estate property tax in the State of Illinois is used as the basis by which local educational institutions, under the authority of the law, determine the amount of tax revenue that can be made available to them. The tax rate is based on a percentage of the College district's equalized assessed valuation.

For 1995-96, the anticipated revenue from local taxes is \$28,907,504 which represents 57.15 percent of Harper College's total operating fund income.

State Apportionment

The state funding formula is the method used to channel state money to the individual schools. The formula is cost-based and the money is distributed on the basis of enrolled students. The formula determines how much is needed to operate all the colleges for a year. The resource requirements are determined by using the actual enrollment from the prior two years, the unit cost (how much it cost per student two years past), and an adjustment for inflation in the areas of salaries, utilities, library materials and general costs plus other identified special needs. Then all local tax revenue is subtracted, and the state apportionment is supposed to be the amount remaining.

The bulk of this money is distributed through credit hour grants in seven instructional categories: Baccalaureate, Business, Technical Health, Remedial/Developmental, Adult Basic Education and General Studies. The College also receives money for grants to fund programs for disadvantaged students on a credit hour basis.

For 1995-96, state apportionment totals \$6,807,478 which represents 13.46 percent of Harper College's total operating fund income.

Others

In addition to these major sources, Harper College obtains some revenue from student fees, chargebacks, interest on investments, sales and service fees, various federal and state grants, and corporate tax.

For 1995-96, the total revenue from these sources is \$4,484,027 which represents 8.87 percent of Harper College's total operating fund income.

Harper College Budget

The Budget Process

The budget is more than a statistical tabulation of numbers that show anticipated revenue and expenditures. It is the financial interpretation of the ongoing educational program for one year beginning July 1 and ending June 30.

Budget planning is a continuous process designed to culminate in the development of a budget that accurately expresses the district's educational program for one year.

Evaluation of the budget at the end of a fiscal year must include an appraisal of the educational program and the total operation of the College.

Budget Philosophy

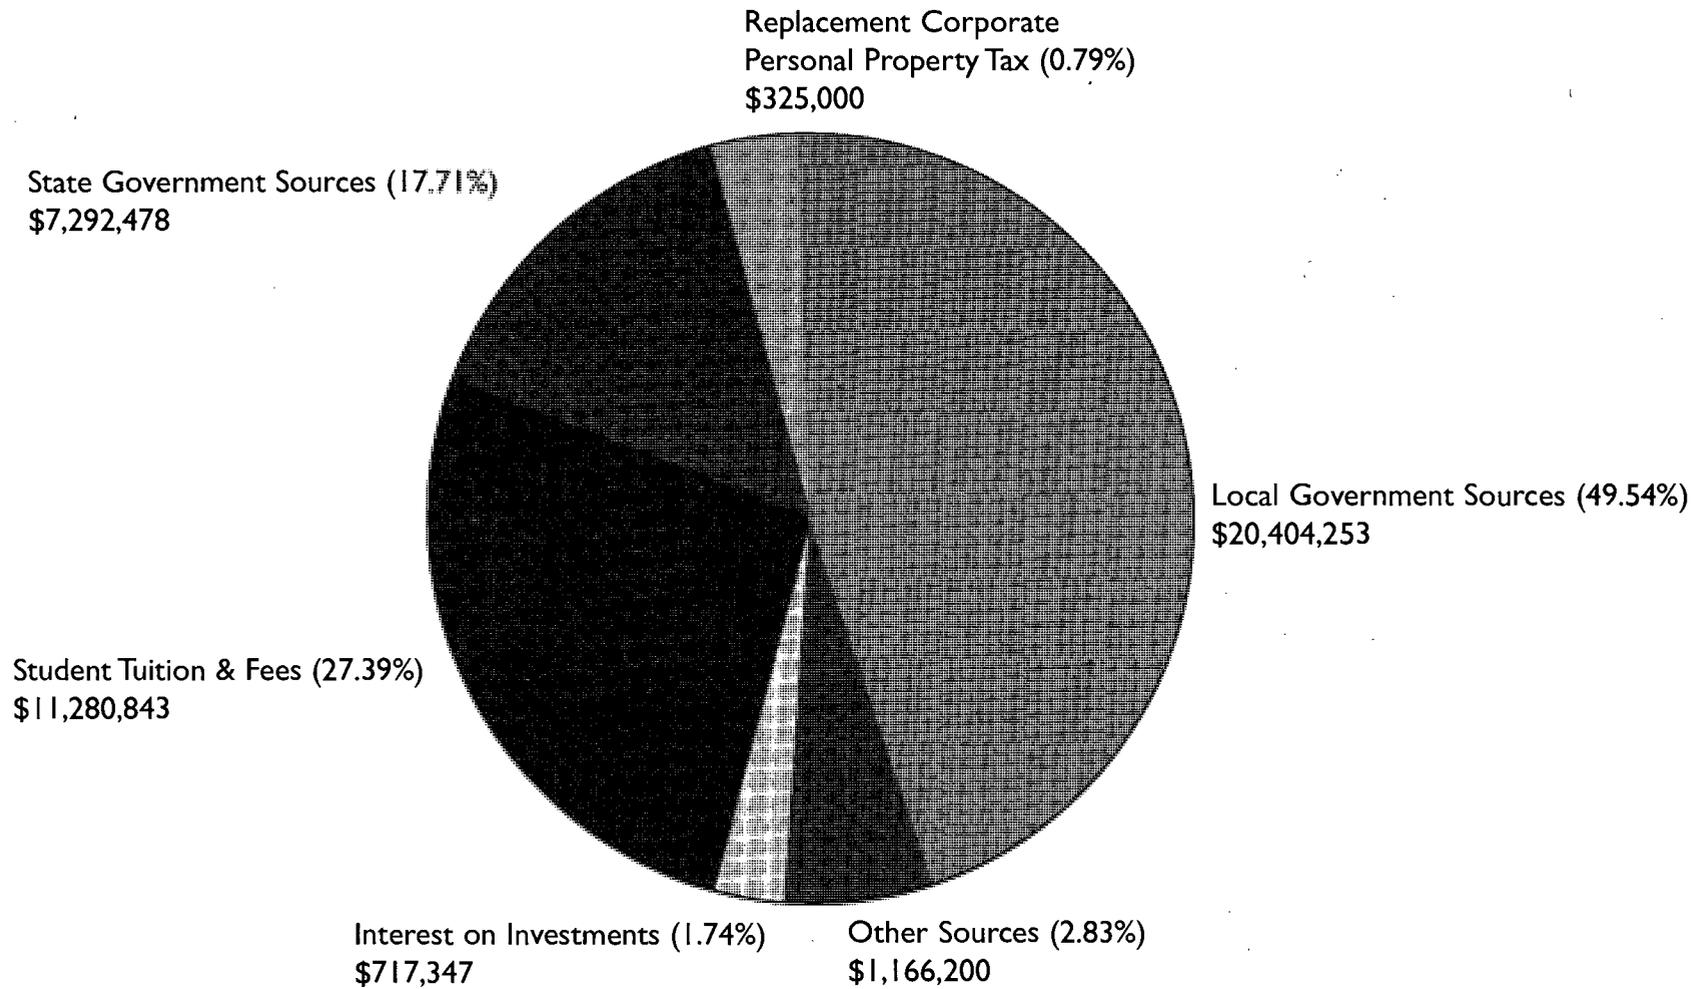

One of the cornerstones of William Rainey Harper College's philosophy is the commitment to involve faculty and students in the development and operation of the College. The sharing of authority requires a commensurate sharing of responsibility by the individuals or groups involved. The advisory role of the faculty and students is limited only by the ability of these groups to analyze problems and present recommendations to the administration and Board of Trustees. The basis for this philosophy is the belief that the democratic process will ensure that Harper College continues to evolve as an outstanding community college.

Based upon this institutional philosophy, a budget philosophy has been developed that involves the faculty, cost center managers and administration in the budget formulation and assigns responsibility to those who share in the authority to implement the budget. The following guidelines have been established:

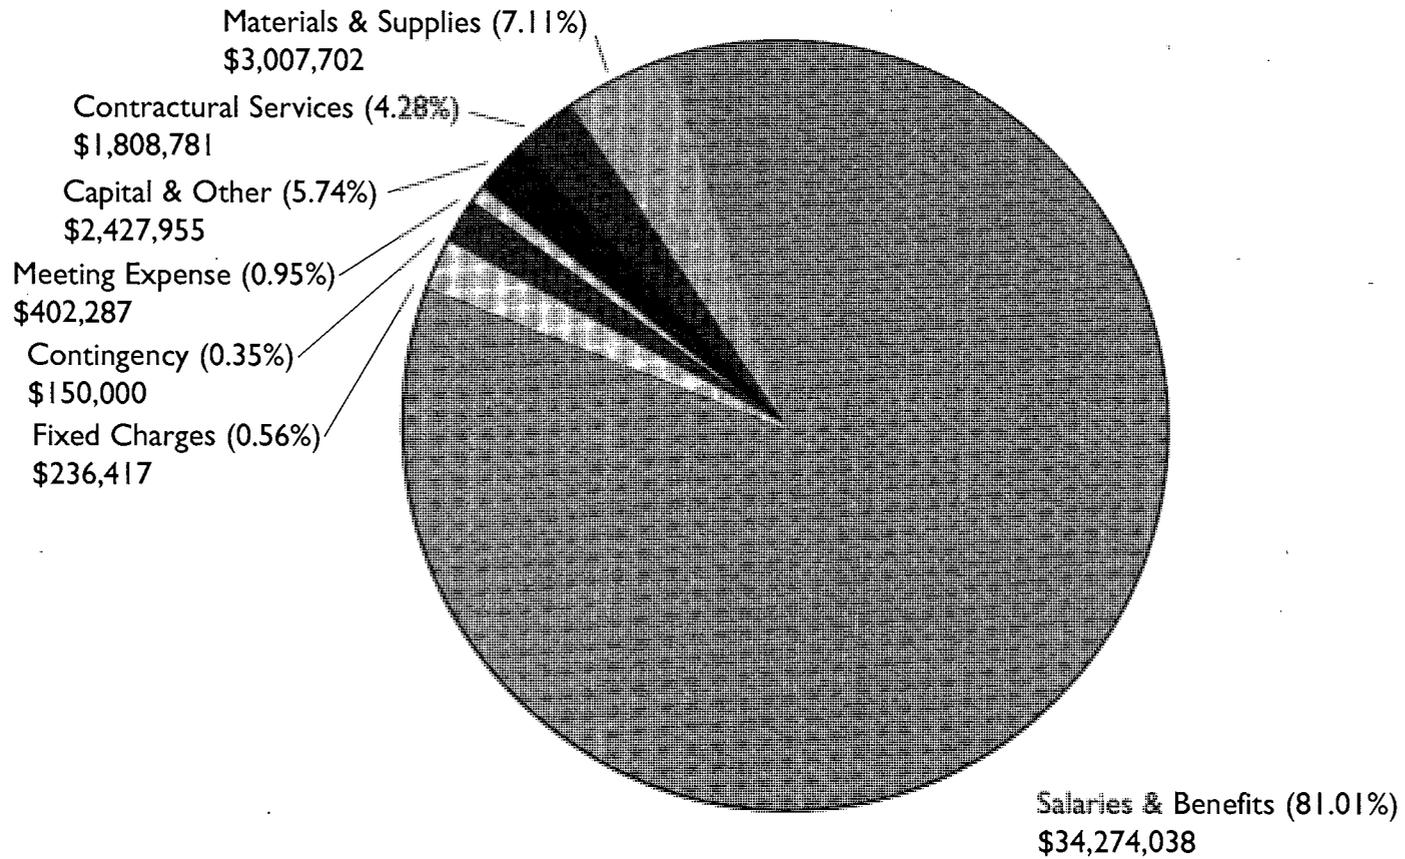

1. The final authority for the adoption of the budget rests with the Board of Trustees and is based upon the recommendation of the President.
2. The President, in consultation with the four vice presidents, is responsible for balancing expenditures for programs within the framework of the budget, based on overall institutional goals.
3. The Vice President of Administrative Services is responsible for the formulation, operation, and control of the adopted budget.
4. In order to obtain faculty and cost center manager involvement, the budget has been decentralized along organizational lines. A decentralized budget places responsibility at the operational level for budgetary planning. A given cost center manager is in the best position to set priorities for efficient operation based upon operating experience. As the budget formulation progresses and reductions are made collectively by all concerned in order to balance the budget, each manager becomes familiar with the operation of all cost centers that in total make up the budget. The result is a budget that faculty and cost center managers have agreed upon, can understand and therefore can support. Thus, budget formulation proceeds along organizational lines until it is legally adopted by the Board of Trustees.
5. While the business office is responsible for the overall control of the budget, individual cost centers are responsible for their estimates and subsequent expenditures. All expenditures initiated by the individual cost centers must receive approval through organizational lines of authority.
6. All expenditures must conform to the policies of the Board of Trustees.

Campus Buildings

Capital funds for the College buildings were provided through a combination of General Assembly appropriations and local construction bond issues approved by the district voters in April of 1966. By 1969, 45 percent of the construction master plan was completed. Harper College opened its doors to 5,400 students at the Palatine campus in the fall of that year.

Subsequent buildings were constructed as state appropriations were made available. The physical education center (Building M) was funded through local bond issues approved in a 1975 referendum. The Observatory (Building O) was privately funded.

Buildings	Acceptance Dates	Values*	Gross Square Feet
A	1969	\$15,566,076	132,593

Harper College Educational Foundation

The Harper College Educational Foundation was established in 1973 as a non-profit organization to provide additional funding for the College. Its members are appointed by the Foundation Board, and the appointments are confirmed by the Harper College Board of Trustees. The Foundation works within the framework of goals approved by the elected Board of Trustees, which provides coordinating services for the Foundation.

The purpose of the Foundation is to support the educational mission of the College, specifically to:

1. Assist the College in providing broader educational opportunities for students, alumni, district residents and employers;
2. Acquire and administer additional assets for the College;
3. Encourage corporations, foundations and individuals to provide gifts, scholarships, grants or bequests of money or property;
4. Foster development of special instruction, research and cultural programs which cannot be funded through the operating budget of the College; and
5. Act in a fiduciary capacity to carry out any of the foregoing purposes.

Friends of Harper

The Friends of Harper is a non-profit support organization which acts as a communication link between Harper College and the 23 communities it serves. Membership is open to any individual or group interested in furthering the mission of Harper College.

The organization is governed by a board of directors elected from the membership to represent each township in the College district. The Harper College Board of Trustees provides coordinating services for the Friends of Harper organization.
