## COLLEGE BUDGET FOR 1993-94 FISCAL YEAR

Submitted herewith is the annual budget for the 1993-94 fiscal year. This budget presents the estimated revenue and expenditures necessary to finance the educational program at Harper College. Implicit in its presentation is the commitment to operate within these limitations.

Harper College is responsive to state and local requests for accountability and quality. With these factors as primary considerations, the budget has been developed with as much involvement by staff as is possible. To the degree possible, each item summarized on the budget resulted from program and division discussions regarding goals and the College's Preferred Future and are supported by specific itemized documents.

The following information should be noted in a review of the 1993-94 College budget:

1. The budget is based upon an FTE enrollment of 2,465 for summer, 9,070 for fall, and 8,525 for spring. Each division's projected budget does include salaries for part-time instructors so it is possible to accommodate fluctuations in student enrollments from that which is projected.
2. The assessed valuation for 1992 increased by 13.6 percent. The Board of Trustees has limited the levy increase on that assessed valuation to 5.0 percent. The Board of Trustees did approve a \$3.00 per credit hour increase in tuition for 1993-94.
3. The major proportion of expenditures is for salaries and employee benefits. Approximately 84.5 percent of the Education Fund is allocated for this purpose. We have realized some reductions from other categories of the budget. During this academic year a study of the medical/dental and other benefits costs will be conducted to determine if reductions on limits might be possible in the future.
4. The Education Fund budget has a \$150,000 contingency account and the Operations and Maintenance Fund budget has a \$200,000 contingency account.

This budget plan has been prepared to provide the Board, community and staff with detailed information on the financial resources supporting the educational commitments of Harper College.

## **COLLEGE BUDGET**

### **The College Budget and the Law**

- A. "The Tenth Amendment of the Constitution of the United States, with certain limitations imposed by judicial interpretations, reserves the responsibility for education to the State, or to the people."
- B. Article Eight of the Illinois Constitution states: "The General Assembly shall provide a thorough and efficient system of free schools, whereby all children of this State may receive a good common school education."
- C. Under this mandate, the courts have said that the State owns all public school facilities and the management of them rests entirely in legislative discretion. Recognizing the desirability of local control, the State legislature has provided for organization, according to desires of the people. Local governing boards are elected to govern the school districts, within State law, in all matters pertaining to education. All lands, monies, or other property, donated, granted, or received for school, college, seminary or university purposes and the proceeds thereof, shall be faithfully applied to the objectives for which such gifts or grants were made.
- D. William Rainey Harper College was established as a Class I junior college under the Illinois Master Plan for Higher Education of 1964, as implemented by the State General Assembly with the Public Junior College Act of July, 1965.
- E. The Public Community College Act, Section 3-1 et. seq., sets forth the requirements concerning the annual Community College Budget.
  - 1. The Board of each community college district shall, within or before the first quarter of each fiscal year, adopt an annual budget which it deems necessary to defray all necessary expenses and liabilities of the district, and in such annual budget shall specify the object and purposes of each item and amount needed or each object or purpose.
  - 2. The budget shall contain a statement of the cash on hand at the beginning of the fiscal year, an estimate of the cash expected to be received during such fiscal year from all sources, an estimate of the expenditures contemplated for such fiscal year, and a statement of the estimated cash expected to be on hand at the end of such year. The estimate of taxes to be received may be based upon the amount of actual cash receipts that may reasonably be expected by the district during such fiscal year, estimated from the experience of the district in prior years and with due regard for other circumstances that may substantially affect such receipts.

3. The Board of each district shall fix a fiscal year.

4. Such budget shall be prepared in tentative form by some person or persons designated by the Board, and in such tentative form shall be made conveniently available to public inspection for a least thirty days prior to final action thereon. At least one public hearing shall be held as to such budget prior to final action thereon. Notice of availability for public inspection and of such public hearing shall be given by publication in a newspaper published in such district, at least thirty days prior to the time of such hearing.

## **THE ILLINOIS COMMUNITY COLLEGE BOARD**

The Illinois Community College Board was created by the Public Junior College Act, and its powers are defined by law. The State Board's primary function is to guarantee statewide planning. In addition, it serves as a body that may accept federal funds for redistribution to the community colleges of the State and enter into contracts with other governmental bodies.

The Illinois Community College Board also retains the power to establish efficient and adequate standards for the many facets of community colleges. Finally, the Illinois Community College Board serves as a coordinating agency for studies of policies, standards, student characteristics, and other subjects.

The nature of powers of the Illinois Community College Board are such that they both encourage and complement effective local Boards of Trustees for individual community colleges.

### **Board of Trustees**

The role of the Board of Trustees is defined in the provisions of the Illinois Public Community College Act as contained in Section 101 et. seq., ch. 22, Illinois Revised Statutes. It is also set forth in the Harper College Policy Manual.

The following duties are those that constitute some specific tasks to which the members of the Board of Trustees must address their efforts, as enumerated in the Board of Trustees' Policy Manual:

1. To maintain records to substantiate all claims for state apportionment in accordance with regulations prescribed by the Illinois Community College Board and to retain such records for a period of three years.
2. To cause an audit to be made as of the end of each fiscal year by an accountant licensed to practice public accounting in Illinois and appointed by the Board.
3. To publish annually, in a newspaper of general circulation in the district, a financial statement developed in accordance with rules and regulations issued by the Illinois Community College Board.
4. To provide for the revenue necessary to maintain the College.

5. To designate the treasurer who is to receive the taxes of the district and to notify the collectors in writing accordingly. The Board shall fix the compensation of the treasurer.
6. To pay orders and bills in accordance with the provisions of the Illinois Revised Statutes, Ch. 122, par. 103-27, and the regulations prescribed or approved by the Illinois Community College Board.
7. To let all contracts for supplies, materials or work involving an expenditure in excess of \$5,000 to the lowest bidder after due advertisement in accordance with the requirements of the Illinois Revised Statutes, Ch. 122, par. 103-27.1, except for those contracts specifically exempted by that statute from said bidding requirements.
8. To adopt an annual budget within the first quarter of the fiscal year, to certify the amount of the tax levy on or before the last Tuesday in December each year, and to comply with all other requirements of law respecting the financial management of the district.
9. To make appointments and fix the salaries of a chief administrative officer, other administrative personnel, and all faculty members without discrimination on account of sex, race, creed, color, national origin, age or handicapping condition.
10. To authorize application of the Illinois Community College Board for the approval of new units of instruction, research or public service and to establish such new units following approval in accordance with the provisions of this Act and the rules of the Illinois Community College Board.
11. To adopt and enforce all necessary rules for the management and government of the College.
12. To adopt regulations for the admission of students which do not conflict with the provisions of Illinois Revised Statutes, Ch. 122, par. 103-17, and to admit all qualified students, except if space is not available. In such a case, those best qualified will be admitted, giving preference to residents of the district, as is authorized or required by the Illinois Revised Statutes, Ch. 122, par. 103-17.
13. To indemnify and protect Board members and employees against death, bodily injury and property damage claims and suits, including defense thereof, when damages are sought for alleged negligent or wrongful acts while such Board member or employee is acting within the scope of employment or under the direction of the College Board of Trustees.

14. To provide, on an equal basis, access to the campus to the official representatives of the armed forces of Illinois and the United States if such access is provided to other persons or groups for the purpose of apprising students of educational or occupational opportunities.
15. To take action as is currently, or may in the future be, required by the laws of Illinois or of the United States and to refrain from taking such action as is currently, or may in the future be, prescribed by the laws of Illinois or the United States.

\* Note: Explanation of Estimated Bond Proceeds Fund Balance

The construction budget for the BOND PROCEEDS FUND was established prior to the close of the fiscal year and prior to the release of specifications and construction contract awards. Expenditures of approximately \$1,500,000 from the F/Y '94 budget were paid from the F/Y '93 budget.

Since payments were made in time to be included in the prior fiscal year, the F/Y '94 budgeted expenditures are overstated and have caused the F/Y '94 estimated BOND PROCEEDS FUND balance to be understated by a like amount. The actual fund balance at the end of F/Y '94 will not reflect a deficit balance, but will reflect either a positive or zero balance depending upon the timing of construction payouts.

## HARPER COLLEGE FINANCIAL PLAN OF OPERATION

### Financial Plan of Operation for Harper College

For the purpose of carrying out the entire educational program of this district, the Board, in accordance with the law, has established the following funds for operation. A fund may be defined simply as a sum of money segregated for the purpose of carrying on specific activities or attaining certain objectives. Each fund is a completely separate entity that must maintain its own financial integrity without permanent assistance from another fund.

#### **A. Education Fund (0100-000-000)**

The Education Fund is established by Section 103-1 of The Illinois Public Community College Act. The statutory maximum tax rate for the Education Fund is 75 cents per \$100 of equalized assessed valuation for community college districts in cities with less than 500,000 inhabitants.

The Education Fund is used to account for the revenues and expenditures of the academic and service programs of the college. It includes the cost of instructional, administrative, and professional salaries; supplies and equipment; library books and materials; maintenance of instructional and administrative equipment; and other costs pertaining to the educational program of the college. (See Sections 103-20.3 and 107-18 of the Illinois Public Community College Act.)

The local board of trustees may make a determination within the budget for the distribution of unrestricted revenues other than local property taxes among the operating funds, i.e., the Education Fund, the Operations and Maintenance Fund, and the Public Building Commission Operation and Maintenance Fund.

#### **B. Operations and Maintenance Fund (0200-000-000)**

The Operations and Maintenance Fund is established by Section 103-1 and Section 103-20.3 of the Illinois Public Community College Act. The statutory maximum tax rate is set at \$.10 per \$100 equalized assessed valuation for community college districts in cities with less than 500,000 inhabitants.

This fund is used to account for expenditures for the improvement, maintenance, repair, or benefit of buildings and property, including the cost of interior decorating and the installation, improvement, repair, replacement, and maintenance of building fixtures; rental of buildings and property for community college purposes; payment of all premiums for insurance upon buildings and building fixtures; salaries of janitors, engineers, or other custodial

employees; all costs of fuel, lights, gas, water, telephone service, custodial supplies, and equipment; and professional surveys of the condition of college buildings. (See Section 103-20.3 of the Illinois Public Community College Act.) The local board of trustees of any district may make a determination within the budget for the distribution of unrestricted revenues other than local property taxes among the operating funds, i.e., the Education Fund or the Operations and Maintenance Fund.

C. **Operations and Maintenance Fund (Restricted) (0300-000-000)**

Sections 103-14 of the Illinois Public Community College Act allows the local board of trustees to establish this fund by permitting an accumulation of funds for building purposes and site acquisition not to exceed an amount equal to five percent of the district's equalized assessed valuation. Monies in this fund cannot be permanently transferred or loaned to any other fund or used for any other purpose.

It is suggested that Protection, Health, and Safety levies; Building Bond Proceeds; Repair and Renovation Grants; and accumulation monies restricted from the Operations and Maintenance levy for building purposes be accounted for in a series of self-balancing accounts in this fund.

D. **Bond and Interest Fund (0400-000-000)**

The Bond and Interest Fund is established by Section 103A-1 of the Illinois Public Community College Act. This fund is used to account for payment of principal, interest, and related charges on any outstanding bonds.

Debt service for each bond issue must be accounted for separately using a group of self-balancing accounts with the fund.

E. **Auxiliary Enterprises Fund (0500-000-000)**

The Auxiliary Enterprises Fund is established by Section 103-31.1 of the Illinois Public Community College Act and accounts for college services where a fee is charged to students/staff. Each enterprise/service should be accounted for separately using a group of self-balancing accounts within the fund. Examples of accounts in this fund include food services, student stores, and intercollegiate athletics.

Only monies over which the institution has complete control should be included in this fund. Subsidies for auxiliary services by the Education Fund should be shown as transfers to the appropriate account.

**F. Restricted Purposes Fund (0600-000-000)**

The Restricted Purposes Fund, established by ICCB Rules 1501.508 and 1501.509, is for the purpose of accounting for monies that have restrictions regarding their use. Each specific project should be accounted for separately using a complete group of self-balancing accounts within the Restricted Purposes Fund. Care should be taken in establishing each group of self-balancing accounts so that the accounting and reporting requirements of the grantor are met. If the grantor provides an accounting manual, it should be followed for the group of self-balancing accounts.

**G. Working Cash Fund (0700-000-000)**

The Working Cash Fund is established by Section 103-33.1 of the Illinois Public Community College Act. This fund is first established without voter approval by resolution of the local board of trustees for the purpose of enabling the district to have on hand at all times sufficient cash to meet the demands for ordinary and necessary expenditures. Additional bonds may be issued, without voter approval, in an amount or amounts, so that total outstanding bonds do not exceed at any one time 75 percent of the total tax extension from the authorized maximum rates for the Education Fund and the Operations and Maintenance Fund combined, plus 75 percent of last year's corporate personal property replacement tax allocation.

This fund is used to account for the proceeds of working cash bonds. By making temporary transfers, the working cash fund is used as a source of working capital by other funds. Such temporary transfers assist operating funds in meeting the demands for ordinary and necessary expenditures during periods of temporary low cash balances.

Payments for the principal or interest of working cash bonds should be made from the Bond and Interest Fund (Section 103-33.1 through Section 103.33.6 of the Illinois Public Community College Act relate to various provisions for the Working Cash Fund.)

**H. General Fix Assets Account Group (0800-000-000)**

This group of accounts is to be used to record the value of plant assets and is normally supported by detailed inventory records.

**I. General Long-Term Debt Account Group (0900-000-000)**

This group of accounts is used to record long-term liabilities.

J. **Trust and Agency Fund (1000-000-000)**

The Trust and Agency Fund, established by Section 103-27c of the Illinois Public Community College Act, is used to receive and hold funds when the college serves as a custodian or fiscal agent for another body. The college has an agency rather than a beneficial interest in these monies. Each agency's monies should be accounted for by a complete group of self-balancing accounts, or sub-fund, within this fund. College club monies, for example, should be accounted for in this fund.

K. **Audit Fund (1100-000-000)**

The Audit Fund is established by Chapter 85, Section 709 of the Illinois Revised Statutes for recording the payment of auditing expenses. The audit tax levy should be recorded in this fund, and monies in this fund should be used only for the payment of auditing expenses.

L. **Liability, Protection and Settlement Fund (1200-000-000)**

This fund is established by Chapter 85, Section 9-107 of Illinois Revised Statutes. The tort liability, unemployment insurance and worker's compensation levy should be recorded in this fund. The monies in this fund, including interest earned on the assets of this fund, should be used only for the purposes authorized under Section 9-107, i.e., the payment of tort liability, unemployment or workers' compensation insurance or claims.

M. **Bond Proceeds Funds (1300-000-000)**

This fund is established to account for the receipt and disbursements from the sale of construction bonds.

**Source of College District #512 Revenues - Operating Fund (Education and Operations and Maintenance Funds (Combined))**

**A. Local Resources**

Harper College will obtain 50.7% of its income from real estate taxes. The present tax rates per \$100 of equalized assessed valuation are \$.154 for the Education Fund and \$.066 for the Operations and Maintenance Fund.

The following table shows an analysis of current (1992) tax rates by fund and/or levy:

\*\* The maximum operating tax rates were increased by a successful referendum on February 26, 1985.

**B. Intermediate Resources**

1. Harper College will obtain 22.5% of its income from student tuition. Resident tuition is \$36.00 per semester hour. The last tuition increase of \$3.00 per semester hour became effective for Fall 1993.

2. Non-resident tuition is based on cost less state aid and resident tuition charges that are paid by all students. Harper College will obtain .4% of its income from chargebacks to community colleges and high schools for courses not offered in these districts. As community colleges have now annexed all of the area northeast of the district, this source of revenue has declined significantly.
3. Harper College obtains 2.3% of its income from student fees. Fees include charges for laboratory courses and other courses that utilize special materials that are consumed based on each student's needs.
4. Harper College obtains 4.1% of its income from miscellaneous sources, such as interest on investments.

**C. Replacement of Personal Property Taxes**

Harper College obtains .9% of its income from a tax which was established to replace the corporate personal property tax, eliminated by statute.

**D. State Resources**

1. Harper College obtains 13.3% of its income from state aid.
2. Harper College obtains 1.0% of its income from the Board of Vocational Education and Rehabilitation. Vocational education is reimbursed on a credit hour basis and varies upon funds available.

**E. Fund Balance**

It is estimated that Harper College will obtain 4.8% of required income from fund balance.

Tax Base

The Harper College tax base increased by 13.6% in 1992.

In the 1979 tax year, corporate personal property taxes were eliminated by law from the College tax base. A replacement tax based on a corporation income tax has been provided for. However, contrary to expectations, the revenue from this source has not grown.

## The Budgetary Process

The budget is more than a statistical tabulation of numbers that show anticipated revenue and expenditures. It is the financial interpretation of the on-going educational program for one year beginning July 1 and ending June 30.

Fisco-educational planning is a continuous process that should culminate in the development of a budget that accurately expresses the district's educational program for the ensuing year.

Evaluation of the budget at the end of a fiscal year must include an evaluation of the educational program in order to appraise the total district's operation. The budget must be in balance. However, this means more than just financial balance. The following concept illustrates the point:

### A. Budget Philosophy

One of the cornerstones of William Rainey Harper College's philosophy is the commitment to involve faculty and students in the development and operation of the College. The sharing of authority requires a commensurate sharing of responsibility by the individuals or groups involved. The advisory role of the faculty and students is limited only by the ability of these groups to analyze problems and present recommendations to the faculty, administration and Board of Trustees. The cornerstone of this philosophy is the belief that the democratic process will ultimately evolve Harper College into one of the outstanding community colleges in higher education.

Based upon this institutional philosophy, a budget philosophy has been developed that involves the faculty and administration in the budget formulation and assigns responsibility to those who share in the authority to implement the budget. The following guidelines have been established:

1. The final authority for the adoption of the budget rests with the Board of Trustees and is based upon the recommendation of the President.

2. The President, in consultation with the four Vice Presidents, is responsible for balancing expenditures for programs within the framework of the budget based on overall institutional goals.
3. The Vice President of Administrative Services is responsible for the formulation, operation and control of the adopted budget.
4. In order to obtain faculty involvement, the budget has been decentralized along organizational lines. A decentralized budget places responsibility at the operational level for budgetary planning. A given cost center manager is in the best position to set priorities for efficient operation based upon operating experience. As the budget formulation progresses and reductions are collectively made by all concerned in order to balance the budget, each manager becomes familiar with the operation of all cost centers that in total make up the budget. The result is a budget that the faculty can understand and, therefore, can support. Thus, budget formulation begins with faculty and cost center managers and proceeds along organizational lines until it is legally adopted by the Board of Trustees.
5. While the Business Office is responsible for the overall control of the budget, individual cost centers are responsible for their estimates and subsequent expenditures. All expenditures initiated by individual cost centers must receive approval through organizational lines of authority.
6. All expenditures must conform to the policies of the Board of Trustees.

A. **The Budgetary Cycle**

The budgetary cycle consists of the evolution, implementation, and evaluation of the budget. This cycle can be outlined as follows:

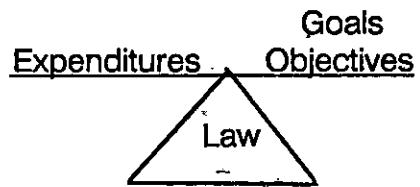

1. Preparation - A cost center function
2. Presentation - An administrative function
3. Adoption and Authorization - A Board of Trustees function
4. Administration and implementation - A cost center and administrative function
5. Evaluation - A combined administrative and Board of Trustees function
