

**Survey of 2007 Career Graduates Tabled Results
For HLC Defined Programs**

*Prepared by the Office of Research
Teaming to meet research needs of the College
June 25, 2008*

The tables that follow provide results of the recently conducted surveys of 2007 Career Graduates for HLC programs. HLC programs are those programs offered by Harper College that require at least 30 credit hours to complete. To preserve respondent confidentiality, only programs with at least five respondents are included in the tables.

The Survey of 2007 Career Graduates closely follows the Occupational Follow-Up Survey developed and required for selected programs by the Illinois Community College Board. The Survey of 2007 Career Graduates was mailed to career program graduates during the Fall 2007 semester. Comiskey Research and the Office of Research staff completed telephone surveys during March and April 2008 for graduates that did not return the mailed survey.

In May, data from the Survey of 2007 Career Graduates was analyzed and counts of respondents and non-respondents were determined. For HLC programs with less than five respondents, data from the 2006 Career Graduate Survey was included only if the same program was not reported in the 2006 Career Graduate Survey Report.

Out of 1,301 career program graduates in 2007, 523 were identified as having earned a degree or certificate in an HLC program. Survey results were obtained for 321 of these graduates for an overall response rate of 61%.

Twenty-six HLC programs had five or more respondents on the surveys. HLC programs that included data from the 2006 Career Graduate Survey (in order to achieve five respondents) are denoted throughout the following tables. The table to the right provides overall response rates for these 26 programs.

Number of students (N) responding to each question is reported in the tables that follow.
