

2014

Harper College

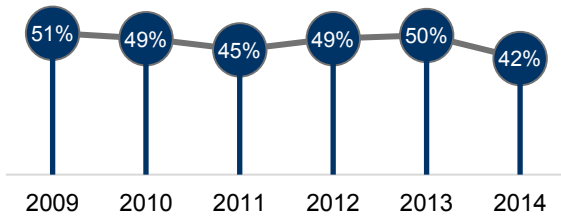

CAREER FOLLOW UP SURVEY

Findings and Trends

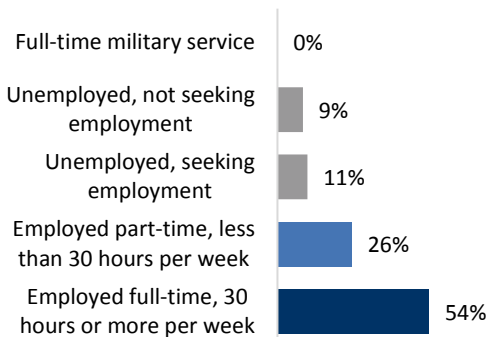

Prepared by
The Office of Institutional Research
Prepared Spring 2017 on the 2014 Graduates

Executive Summary

Response Rates from 2009 to 2013

The majority of 2014 respondents are employed either **part-time** or **full-time**.

Background and Response Rate

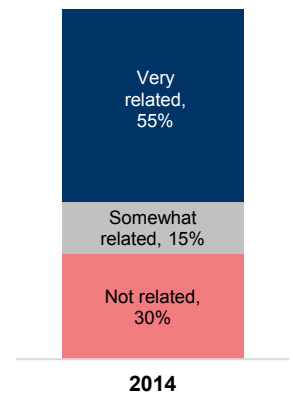

Students who have completed a certificate and/or Associate of Applied Sciences credentials in fiscal year 2014 were surveyed to determine the extent to which they have found employment and to assess their satisfaction with their experience at Harper College.

Employment

The majority (80%) of respondents are employed either part-time or full-time. Of those who are employed, many were employed in a field related to their program of study. In 2014, **30%** of respondents reported working in an unrelated field to their credential from Harper. The top three reasons were...

1. Temporary job while in transition
2. Preferred a job in another field
3. Could not find a job in their field of study

The majority of 2014 Career Graduates are working in a very related or somewhat related field.

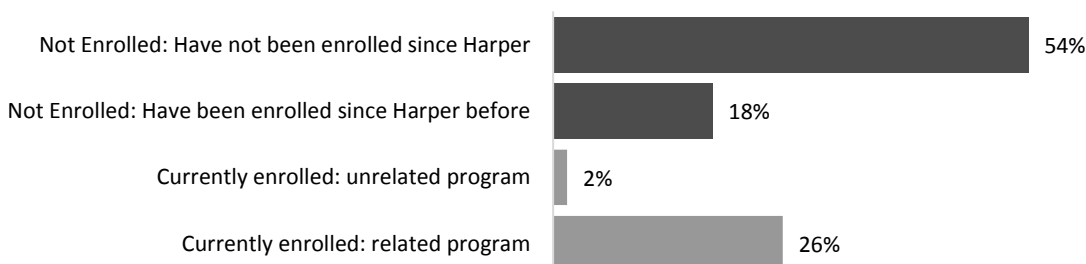

While the majority of working 2014 graduates are **somewhat** or **very satisfied** with their present job, **19%** are, to some degree, **dissatisfied** at work.

Educational Status

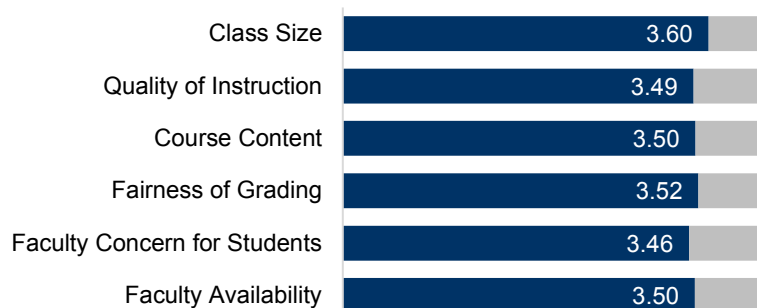

The majority of 2014 career respondents are not currently enrolled in another college or institution since earning a credential at Harper College.

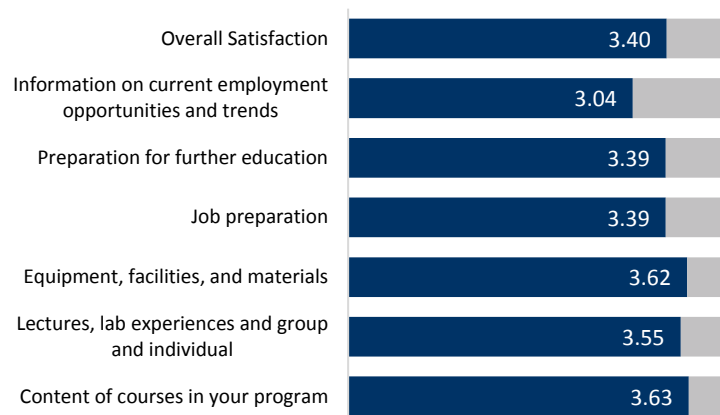

Course and Program Satisfaction

Consistent with prior years, the majority of **2014 career respondents reported being satisfied with aspects of their program of study**. Respondents were least satisfied with information on current employment opportunities and trends (average 3.04 out of 4). The 2014 career graduates were also overall **satisfied with their experiences outside of their program of study**. When graduates rated areas of instruction, class size was the highest rated (average 3.6 out of 4).

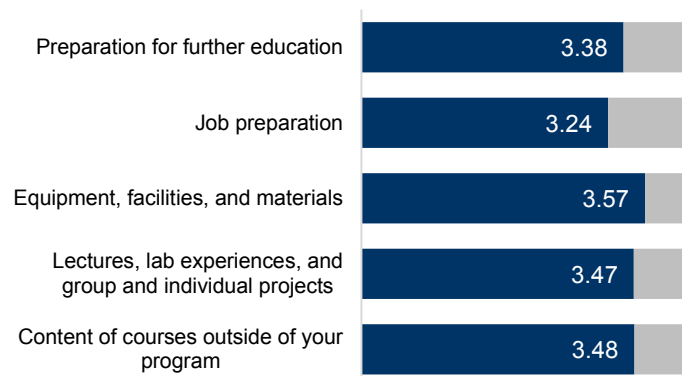

Satisfaction Ratings of Instruction

Satisfaction Ratings with Program of Study

Satisfaction Ratings outside Program of Study

Student services satisfaction

Except for registration procedures, many of student services and offices were reported not used by the 2014 career respondents. Of the respondents who used the offices and services on campus, the **majority of 2014 respondents were Somewhat or Very Satisfied**.

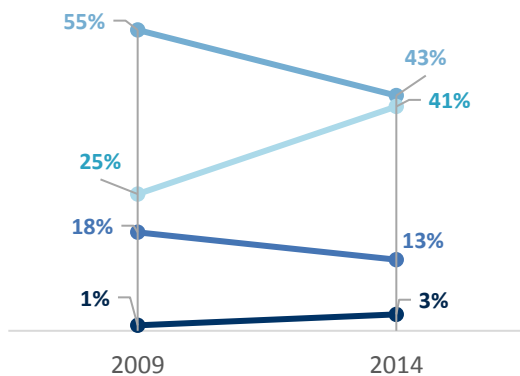

Mean Ratings of Offices and Services at Harper

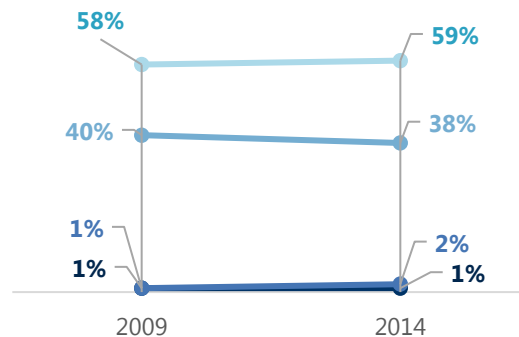

Satisfaction with Harper College

The 2014 respondents felt their experiences at Harper College **bettered their appreciation** for diversity and different cultures and values. Respondents also responded they **would recommend** Harper College to their friends and family, and **would return** for personal enrichment or education in the near future.

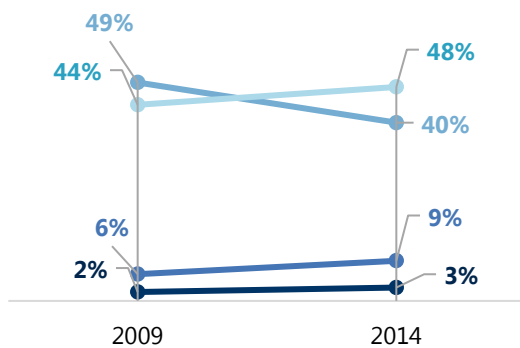

As a result of your experiences at Harper, do you have a better appreciation for diversity and different cultures and values?

Would you recommend Harper to your friends and family?

Would you return to Harper for education or personal enrichment courses in the near future?

Introduction

Every year, Harper College partners with Comiskey Research to disseminate the Harper College Follow Up Survey (previous known as the *Graduate Survey*) to career program graduates from the preceding fiscal year. Career programs are any **certificate** or **Associate of Applied Science (AAS)** degree programs. The survey consists of items that were developed locally and required items from the Occupational Follow-Up Survey by the Illinois Community College Board for career programs undergoing program review. The goal of the survey is to ascertain the **current employment** and **educational status** of Harper career graduates, their **satisfaction** with their academic **experiences at Harper**, their views on diversity, and the extent they would recommend Harper College to others or return to Harper in the future.

The findings presented throughout this report are based on the responses from 882 (42% response rate) completed surveys. Not every question was answered by every respondent, so findings only display the total responses for each question and distribution for that question (reporting valid responses). All percentages are rounded and may not add up to be exactly 100 percent. **For more information on the 2014 survey respondents, explore the Follow Up Survey Dashboards on the Office of Institutional Research HIP page.**

Response rates

Of the 2,106 graduates who were sent invites to participate in the 2014 Follow Up Survey, 882 provided responses. The 2014 survey response rate (42%) is slightly lower compared to prior survey years.

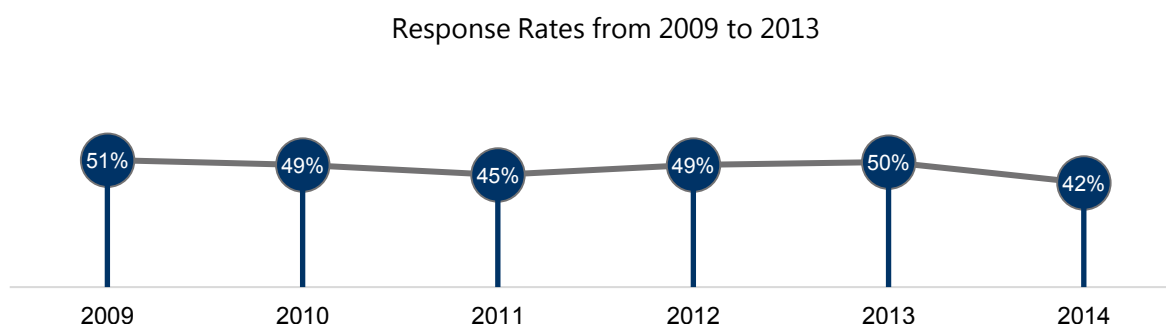

Figure 1. Response Rates to the Graduate Survey

Results and Discussion

Demographics

The demographics of all Harper College career graduates have remained fairly static over survey years. Career graduates were predominately white and female. In 2013, racial/ethnic groups were expanded to include graduates who reported two races ("Multi-Racial"). Table 1 below shows the racial and gender breakdown for all career graduates.

Table 1. Demographics of all the 2014 Career Graduates

	Asian/Pacific Islander*	American Indian/Alaskan Native	African- American/ Black	Hispanic/ Latino	White	Other/ Unknown	Multi- Racial	Male	Female
2009	9%	1%	3%	9%	69%	9%	--	36%	64%
2010	10%	<1%	4%	11%	66%	9%	--	35%	65%
2011	9%	<1%	4%	11%	69%	8%	--	39%	61%
2012	10%	<1%	4%	13%	66%	8%	--	39%	61%
2013	12%	<1%	5%	5%	77%	<1%	2%	36%	64%
2014	10%	<1%	4%	18%	63%	3%	1%	35%	65%

Figure 2 shows how the graduates who responded to the 2014 Follow Up Survey compare to all 2014 career graduates. The sample of graduates who responded to the survey is similar to the demographics of the entire 2014 career graduate pool. The similarity in demographics suggests the 2014 respondents are representative of the 2014 career graduate group overall.

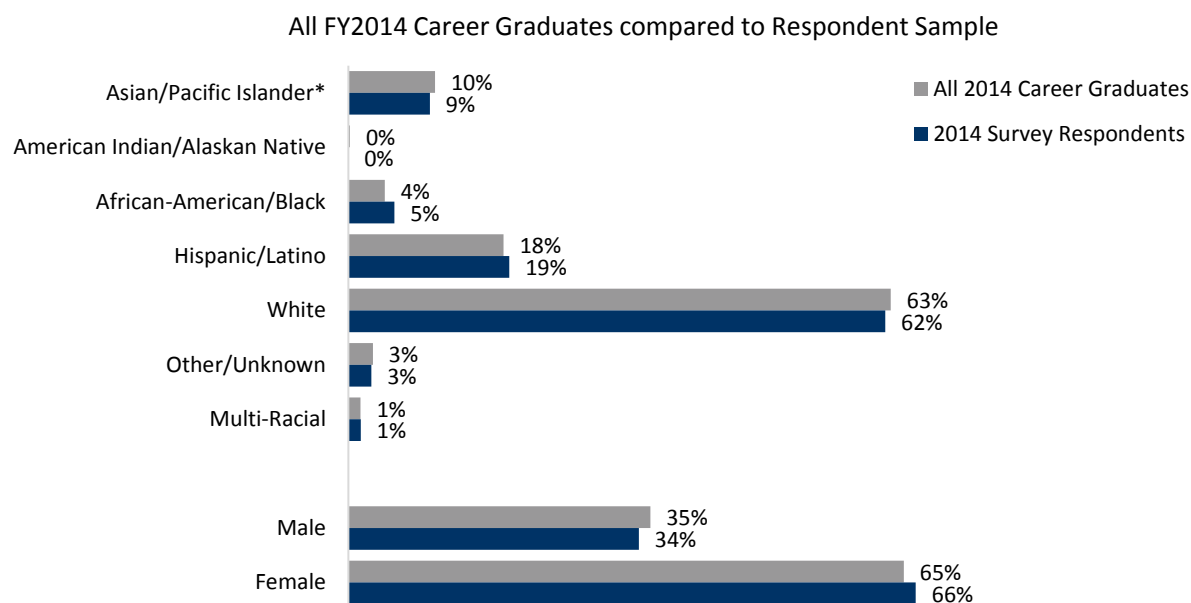

Figure 2. 2014 Career Graduates Survey Respondents Compared to All Graduates

Student Intent

The majority of career respondents attended Harper to **obtain skills for a job**. More reported their main objective for attending as **taking coursework for transfer to another college** in 2014, the highest it has been since 2011. Starting in 2011, more students reported their main objective was to attend Harper College for personal interest or self-improvement. However, fewer 2014 respondents indicated personal interest or self-improvement was their main objective (15%).

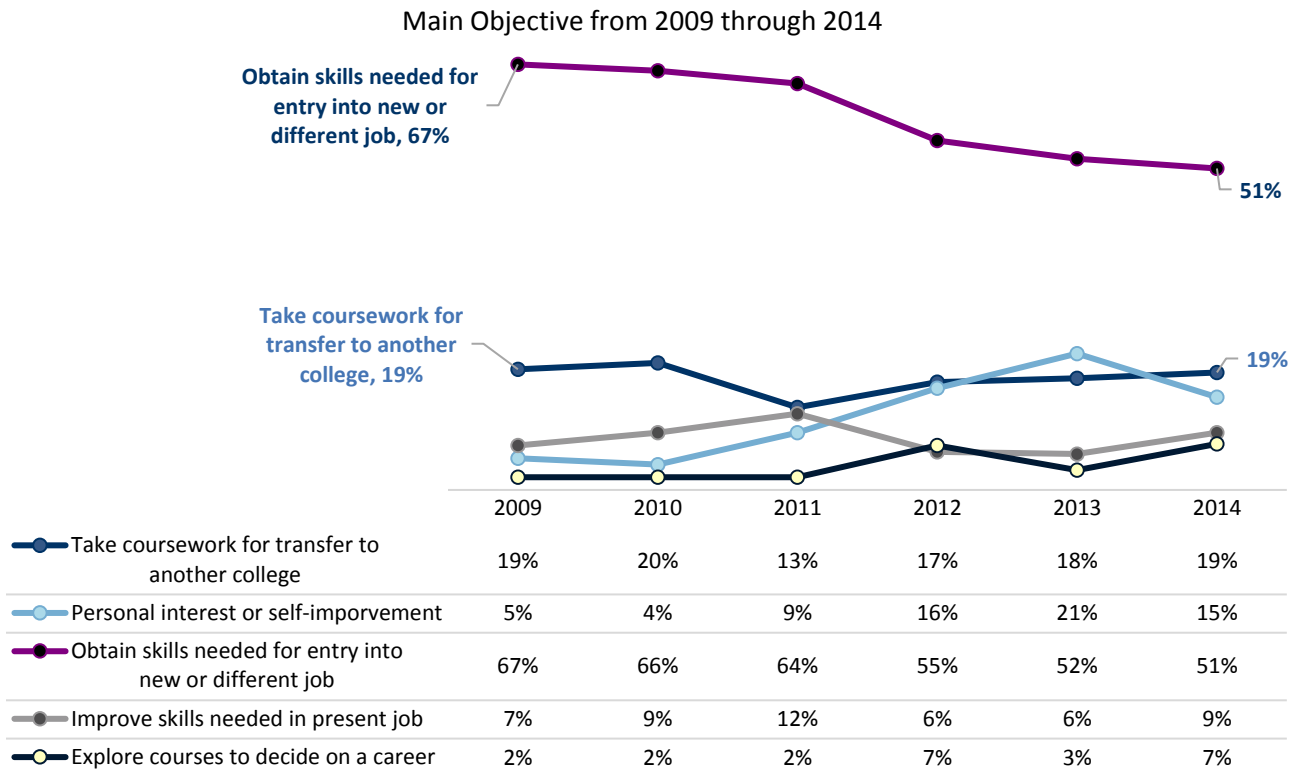

Figure 3. Main Objective for Attending Harper College

The 2014 respondents were asked how successful they were in achieving their main educational objective. The majority reported being **successful** (21%) or **very successful** (66%) in achieving their educational objective at Harper.

The majority of graduates reported being **successful** or **very successful** in achieving their educational objective at Harper.

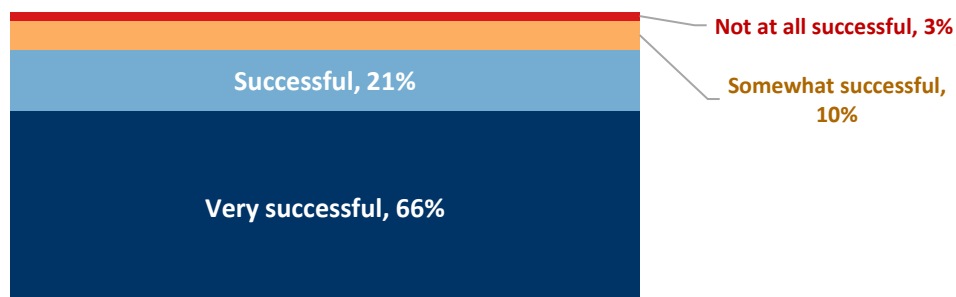

Figure 4. Success in Achieving Educational Objective

Educational Status

Of the 2014 career respondents who responded with their education status, many [have not enrolled in another institution since leaving Harper](#). Many others are enrolled in a [program related to their credential from Harper](#). Twenty-eight percent (28%) of the 2014 career respondents are currently enrolled at a college after earning their credential at Harper.

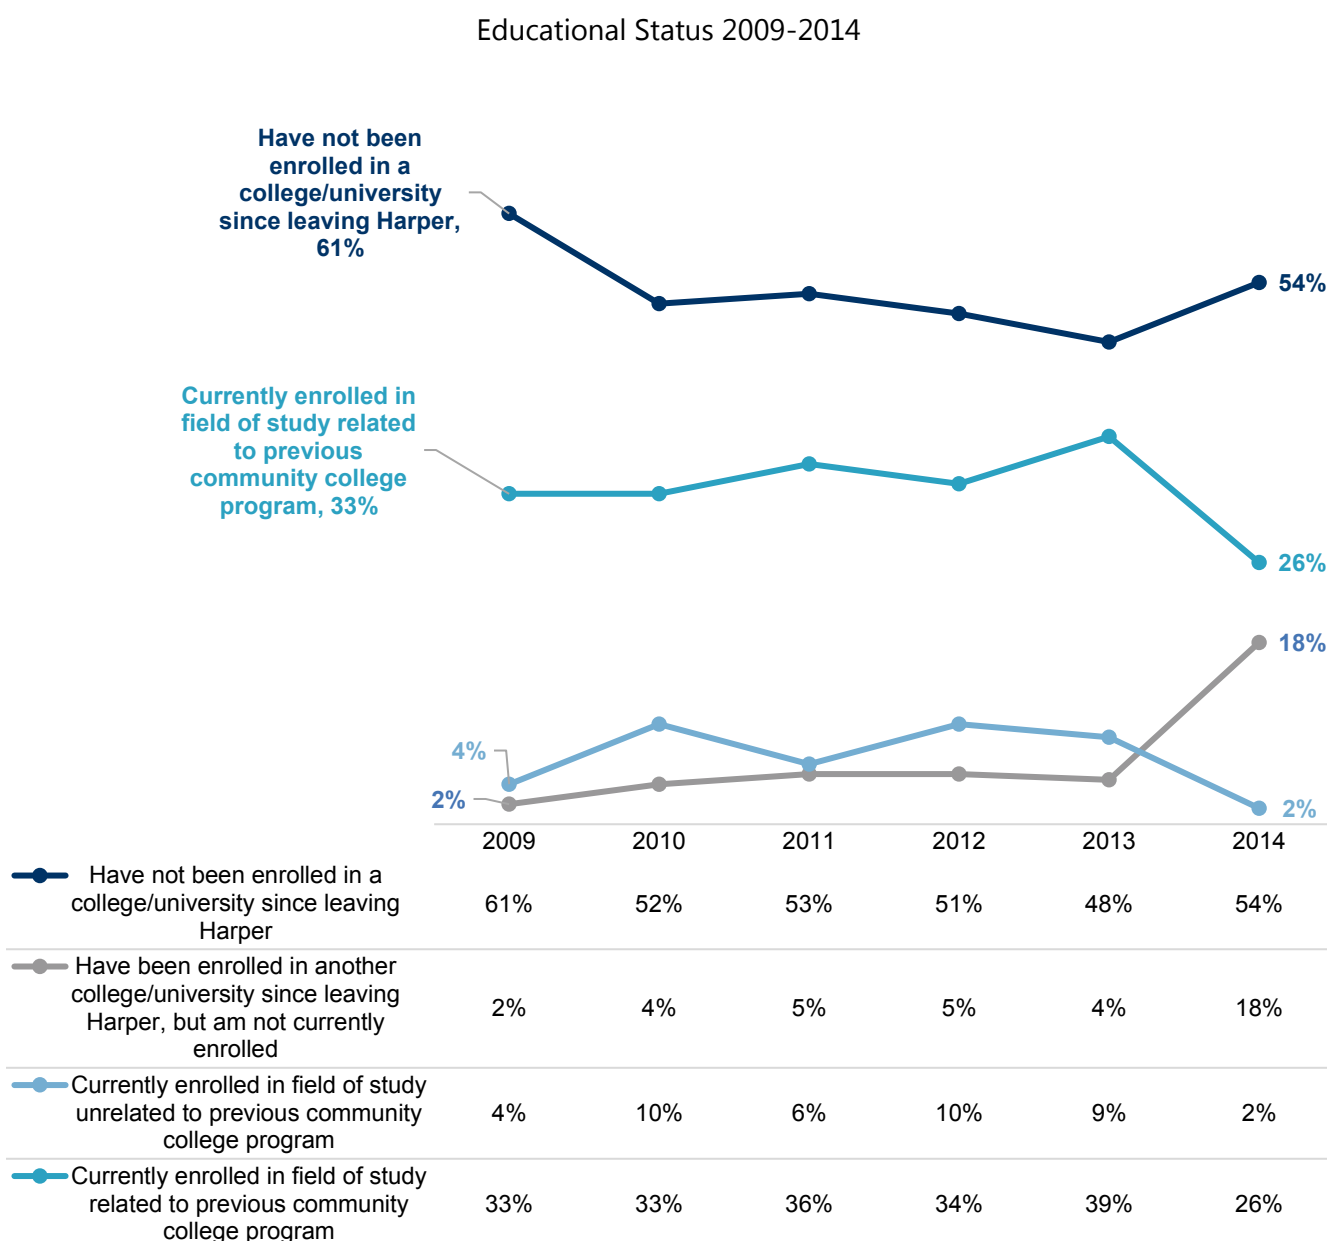

Figure 5. Educational Status

Employment

Employment Status

The majority of 2014 career respondents are employed either **full-time** or **part-time**. Just over half of the respondents indicated being employed full-time since receiving their credential from Harper College (54%). Nine percent (9%) of the 2014 respondents responded being unemployed and not seeking. Of the nine percent (9%) who are **employed and not seeking**, the majority are full-time students (70%).

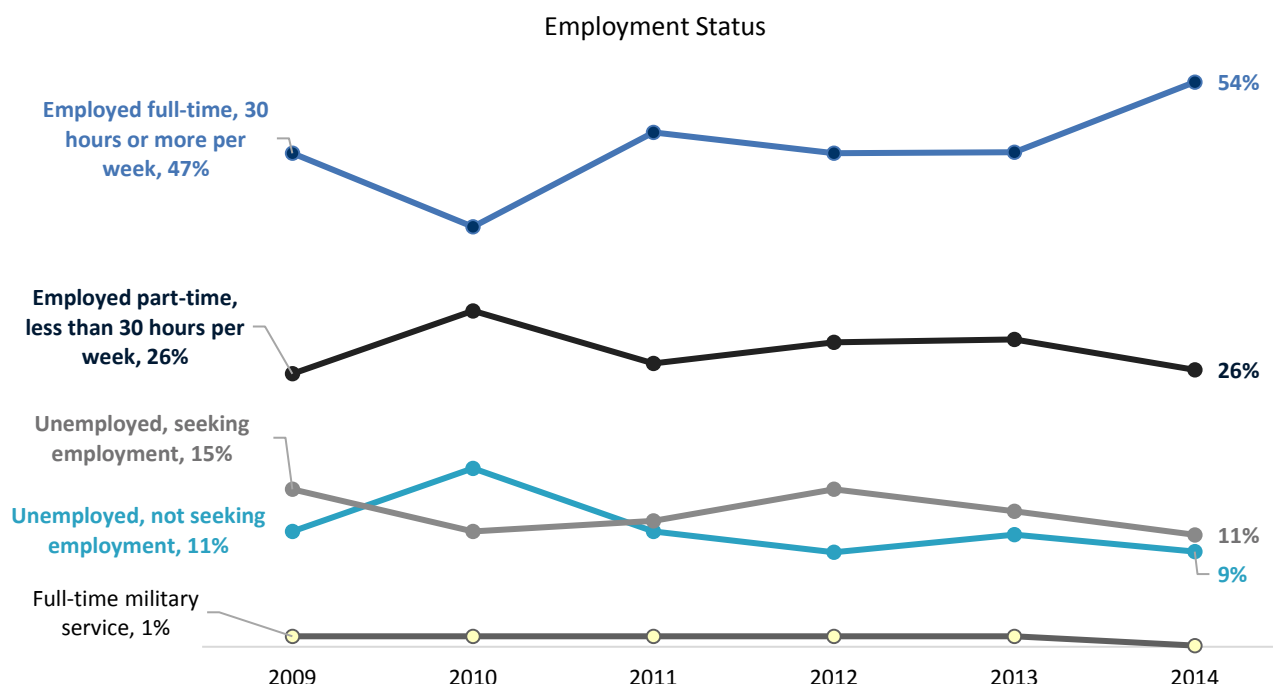

Figure 6. Employment Status

	2009	2010	2011	2012	2013	2014
Other reason	12%	26%	16%	9%	14%	12%
Health disability	6%	5%	8%	4%	2%	4%
Full-time student	61%	51%	59%	63%	67%	70%
Full-time homemaker	10%	6%	10%	17%	13%	4%
Family Responsibility	10%	13%	6%	8%	4%	10%

Job Relation to Program of Study

In 2009 and 2010, respondents were asked if their job was **related** or **not related** to their program of study at Harper. In 2011 the options changed to **not related**, **somewhat related**, or **very related**. Overall, the majority of respondents from each survey year are employed in a field related to their program of study at Harper College. The respondents who indicated they are employed in an unrelated field were asked a follow-up question to assess the reason why. In 2014, the top reason career respondents were not employed in a related field to their program of study was temporary job while in transition (39%).

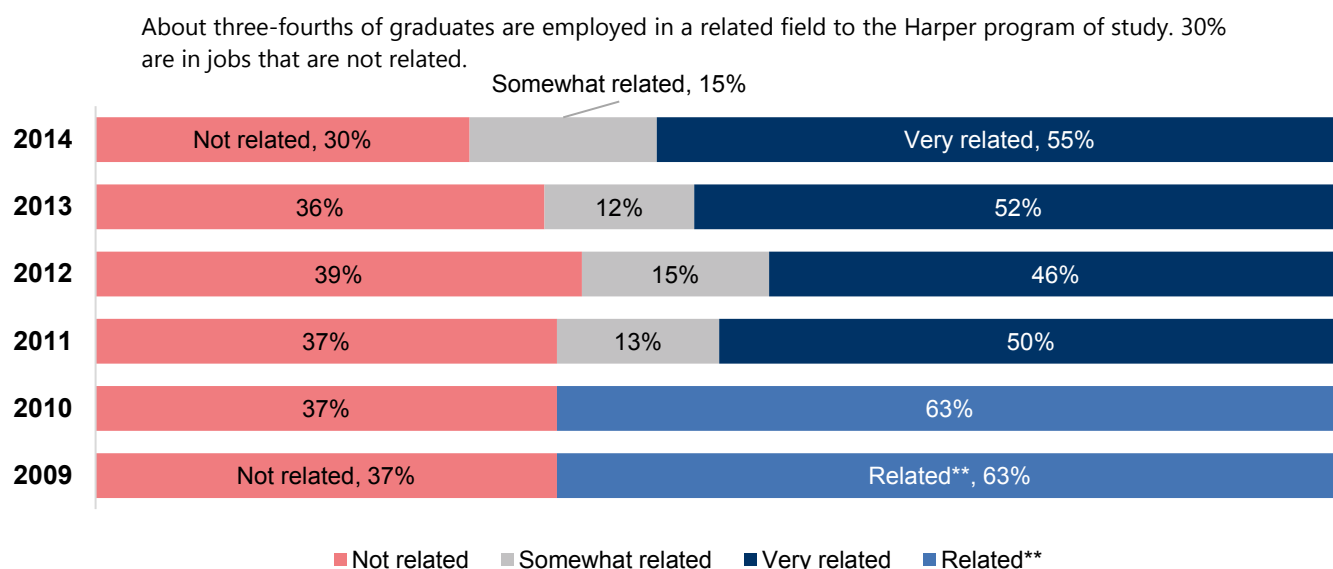

Figure 7. Job Relation to Program of Study

**Note: survey response choices changed from 2010 to 2011. In 2011, the scale changed to 1- not related, 2 – somewhat related, and 3 – very related.

Table 3. Reason Job is Unrelated to Program of Study

If your present job is unrelated to your college program , what is the one best reason why?	2009 (100)	2010 (176)	2011 (292)	2012 (373)	2013 (319)	2014 (206)
Other reason	0%	11%	11%	8%	8%	16%
Temporary job while in transition	0%	37%	35%	48%	37%	39%
Preferred to work in another field	11%	14%	20%	16%	22%	14%
Could not find a job in my field of preparation	1%	25%	27%	19%	15%	15%
Did not complete program/pass licensing test to be eligible to work in my field	0%	2%	1%	2%	8%	2%
Found better paying job in another field	5%	7%	4%	3%	5%	10%
Worked previously in my field of preparation, but changed	24%	2%	1%	2%	3%	2%
Took job in order to get preferred working hours	57%	2%	1%	1%	2%	2%
Preferred not to move to new locality	1%	0%	1%	1%	1%	0%
Health problems prevented me from working in my field of preparation	1%	1%	1%	1%	0%	0%

Working Hours and Wages

In 2011, the survey item regarding number of hours worked changed from an open-box to an interval-scale. For this reason, 2009 and 2010 were not included in Figure 8, but the information from the previous years are available in Table 4. Overall, the majority of respondents are working either full-time or part-time hours. Of the 2014 respondents who are employed, the majority are working **typical full-time hours**. Few are working more than typical full-time hours, or working less than 30 hours a week.

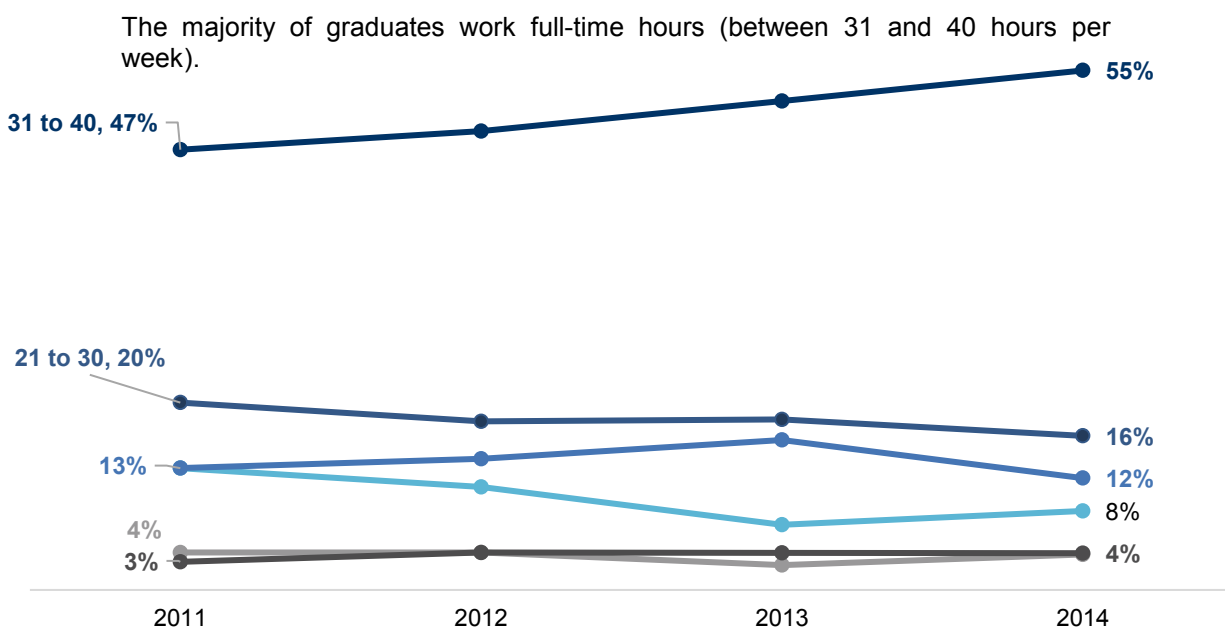

Figure 8. Typical Hours Worked per Week

Table 4. Hours Worked per Week and Pay

Average Hours of Work per Week and Mean Hourly Wage				
	N	Average Hours Worked/Week	Average Hourly Wage	
2009	117	31.7	\$ 18.54	
2010	277	30.5	\$ 16.62	
2011	287	-	\$ 16.94	
2012	555	-	\$ 17.99	
2013	523	-	\$ 21.51	
2014	317	-	\$ 17.83	
On average, how many hours do you work each week?				
Hours/Week Range	2011	2012	2013	2014
0 to 10	3%	4%	4%	4%
11 to 20	13%	14%	16%	12%
21 to 30	20%	18%	18%	16%
31 to 40	47%	49%	52%	55%
41 to 50	13%	11%	7%	8%
51+	4%	4%	3%	4%

Job Satisfaction

While the majority of respondents felt **somewhat** or **very satisfied** with their current jobs, 17% of 2014 career respondents felt **somewhat** or **very dissatisfied** at work. The ratio of satisfied to dissatisfied graduates at work has remained consistent over survey years, though 2010 graduates were more dissatisfied with work compared to all other years.

The majority of respondents were somewhat or very satisfied with their current job.

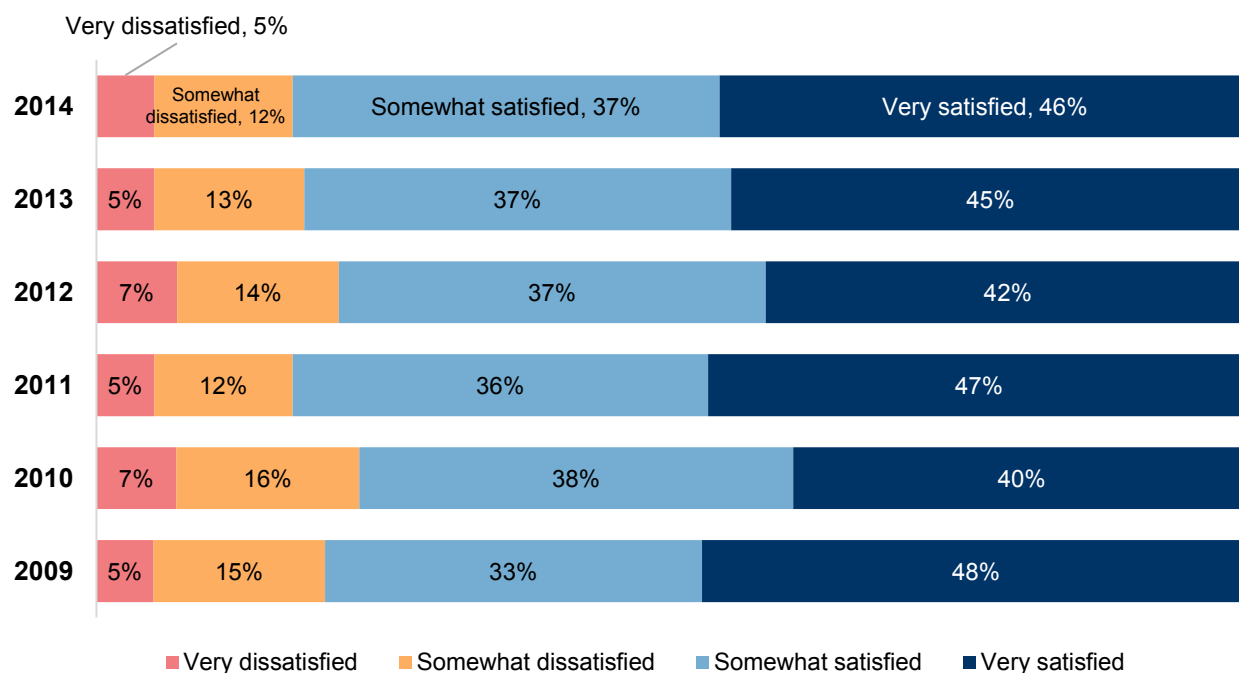

Figure 9. Job Satisfaction

Table 5. Job Satisfaction

In general, how satisfied are you with your present job?						
	2009	2010	2011	2012	2013	2014
Very dissatisfied	5%	7%	5%	7%	5%	5%
Somewhat dissatisfied	15%	16%	12%	14%	13%	12%
Somewhat satisfied	33%	38%	36%	37%	37%	37%
Very satisfied	48%	40%	47%	42%	45%	46%

When Graduates Began Working

Forty-eight percent (48%) of 2014 respondents started at their job after earning their credential from Harper. Many of the career respondents began working **after leaving their program**, a trend that spiked in 2011 and had remained consistent since. The percent of respondents who began work **before entering their program** has declined since 2009.

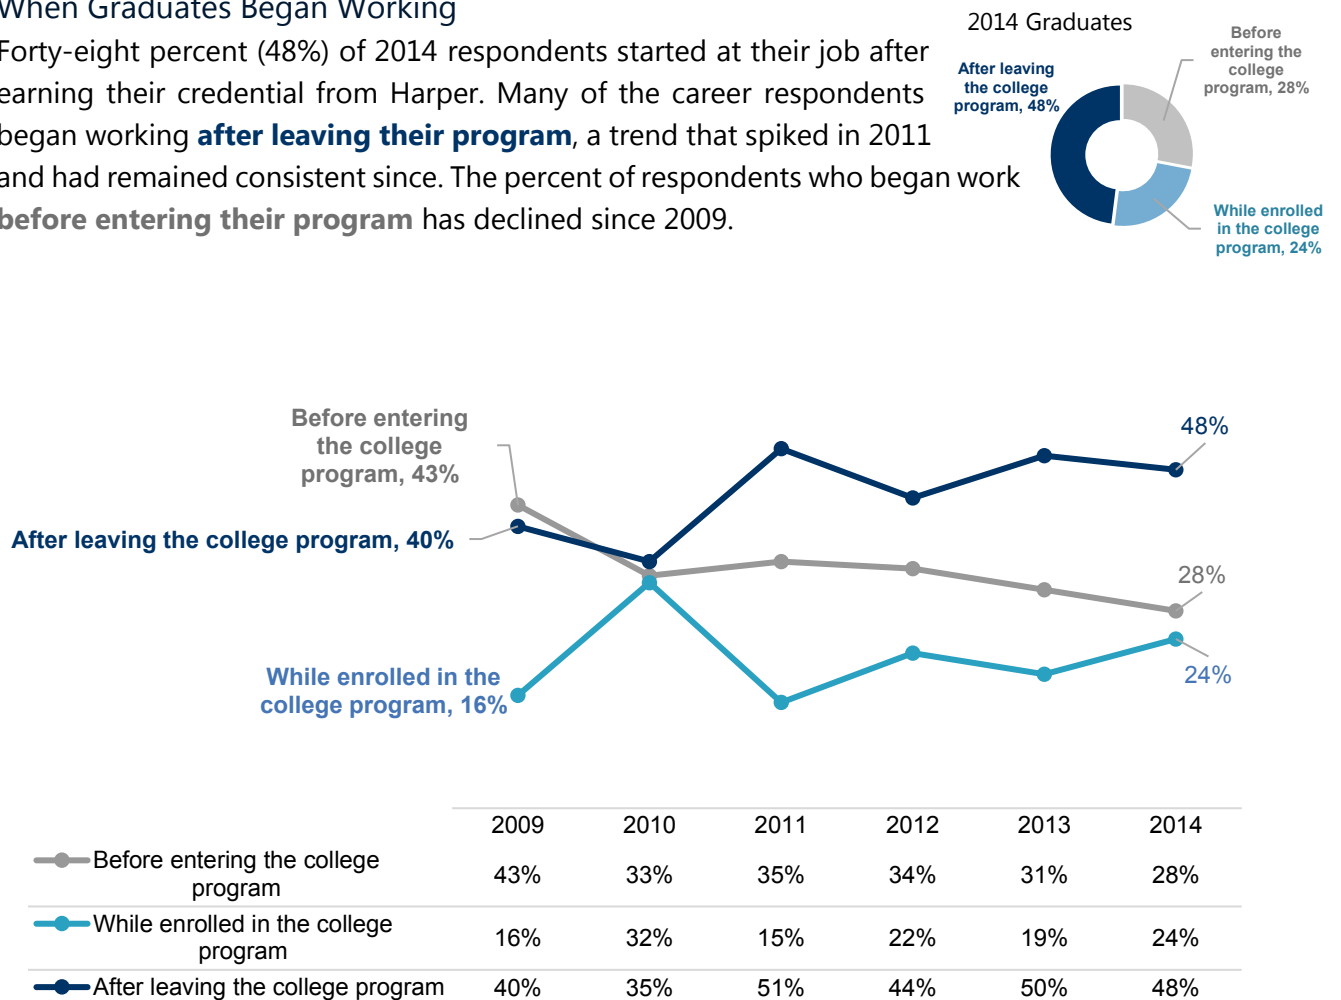

Figure 10. Time Started Working

Location of Employment

The large majority of 2014 career respondents work inside the state of Illinois. Half of the 2014 respondents work within Harper's district (50%). While more respondents reported **working outside of Illinois** in 2013 (6%) compared to previous years, the majority still were employed within the state.

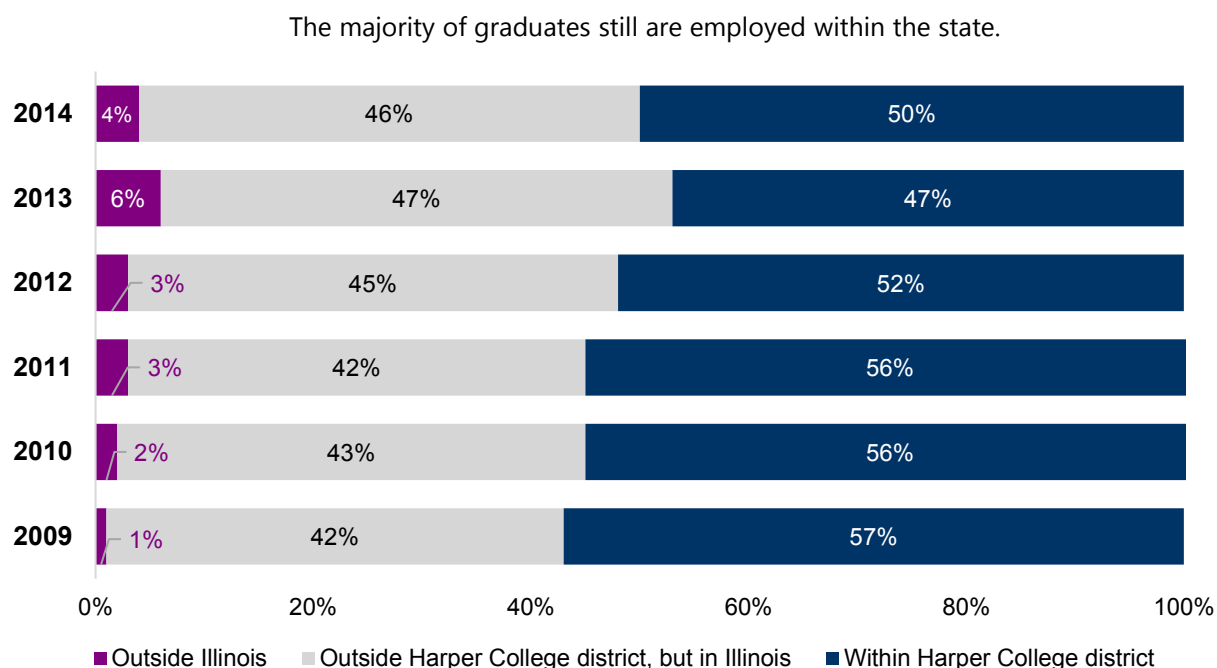

Figure 11. Location of Employment

Table 6. Location of Employment

Location of Employment						
	2009	2010	2011	2012	2013	2014
Outside Illinois	1%	2%	3%	3%	6%	4%
Outside Harper College district, but in Illinois	42%	43%	42%	45%	47%	46%
Within Harper College district	57%	56%	56%	52%	47%	50%

Satisfaction with Harper Experience

Satisfaction within Program of Study

Career respondents rated their program on specific items using a scale where 1 – very dissatisfied and 4 – very satisfied. Overall, respondents are satisfied with the aspects of their program of study at Harper College (Table 7). Figure 12 (below) shows the results from the 2014 career respondents' satisfaction ratings only. Consistent with prior years, 2014 respondents are **very satisfied** with the equipment, facilities, and materials but less enthusiastic about information on current employment opportunities and trends.

Satisfaction with Services and Offices on Campus

Career respondents rated thirteen offices and services at Harper College on a scale where 1 = Very Dissatisfied, and 4 = Very Satisfied, or "Did not Use/NA". The majority of respondents reported underutilizing the listed offices and services (Figure 14). The 2014 respondents reported being, on average, satisfied (Figure 15). Table 6 shows the ratings for all respondents from 2009 through 2014.

Location Ratings

Career respondents were asked to rate the convenience of Harper College locations on a three-point scale where 1 = **Not convenient**, 2 = **Convenient**, and 3 = **Very convenient**, or 0 = N/A. The majority of graduates **did not use** the HPC, Northeast Center (LCC), or Online Program options. The 2014 respondents rated the Main Campus and Web/Internet as the most convenient. The Northeast Center in Wheeling (LCC) was rated the least convenient of all locations.
