## **CANDIDATE STATEMENT STUDENT TRUSTEE**

**LAVLEEN MAL**

[l\\_mal@mail.harpercollege.edu](mailto:l_mal@mail.harpercollege.edu)

I, Lavleen Mal Randhawa, strongly believe I am the most qualified person running for the Student Trustee of our beloved Harper College. I am currently a student at Harper, studying psychology. I have been in the field of leadership since my high school as I have served my high school as School Prefect/ Head Boy for 2 years. At Harper College, I have been the President of International Student's Club as well as Student Ambassador of HLC. I always take part in Campus Activities. I worked my way up from being only a committee member. In addition, I have had the pleasure of creating relationships with students, club members, and faculty members.

I have attended events and networked with many of the departments such as the career planning center, the humanities department, and the communications office. I hope to utilize all my knowledge, resources, and connections to do an amazing job as Student Trustee. I am familiar with this institution and I am ready to begin making changes for the betterment of our campus, our community, and our future. My strength is definitely student interaction with education. I am well rounded organized and a heck of a multi tasker. I am also a Medical major who will be innovative and get things done in an outstanding matter, like doctor find out the disease, and helps us to get rid of it. I am determined to excel all expectations and be a memorable Trustee.

If elected as Trustee, I plan to enrich student life on campus, as my main goal. I currently am part of a few clubs on campus, and hence I am aware of student's needs. I yearn to make students life at Harper College delightful and a highlight life experience. I believe that making the recourses more upfront and easy to find will increase usage alike the private free tutors that we have on our campus that no one seems to know about. If elected, shining light on these resources will be one of my main goals along with many others like creating a networking event where students can network with other students with the same major and establish long lasting connections. I also appreciate that people come to me if they have any issue with anything, and which they think they need to talk about. I will be always there for everyone on as well as off campus, as I am strongly in the favor of "See Something, Say Something".

Thanks, Lavleen Mal
