

PROGRAM ARTICULATION AGREEMENT

Between the

**DENTAL HYGIENE PROGRAM
HARPER COLLEGE
PALATINE, ILLINOIS**

And the

**DENTAL HYGIENE PROGRAM
COLLEGE OF APPLIED SCIENCES AND ARTS
SOUTHERN ILLINOIS UNIVERSITY CARBONDALE
CARBONDALE, ILLINOIS**

In an effort to provide a continued, articulated higher education baccalaureate degree program that will build on community college and university learning experiences, and also eliminate duplication of instruction, this agreement is set forth between the Dental Hygiene program at Harper College and the Dental Hygiene program in the College of Applied Sciences and Arts at SIUC with the approval of the Board of Trustees of Southern Illinois University on behalf of Southern Illinois University Carbondale (SIUC).

All graduates of Harper College with an A.A.S. degree in Dental Hygiene who meet SIUC entrance requirements will receive preferential status when being reviewed for the controlled enrollment process into SIUC's Bachelor of Science (B.S.) degree in the Dental Hygiene program in the College of Applied Sciences and Arts, SIUC. A separate Dental hygiene application is required in addition to SIUC's general admission application. Any student transferring from outside the University or from other SIUC programs into the Dental Hygiene major will be evaluated on the Dental Hygiene application information. This preferential status will be based on space availability. Students accepted into the Dental Hygiene program must meet the program's controlled enrollment criteria.

2.* A Harper College graduate receiving an A.A.S. degree in Dental Hygiene at Harper College and who is admitted into the Dental Hygiene program at SIUC will be accepted for the Capstone Option if the following are met:

- (a) a minimum of 60 transferable hours to SIUC.
- (b) an overall grade point average (GPA) of 2.25 or above (4.0 scale) on all accredited work received prior to the awarding of the AAS degree as calculated by SIUC's grading regulations.
- (c) the completion of at least (15) hours of transferable University Core Curriculum (general education) credit at Harper College.
- (d) all Dental Hygiene major courses are completed with a grade of C or higher

Acceptance into the Capstone program guarantees the A.A.S. degree recipient in the Dental Hygiene program at Harper College completion of the B.S. in Dental Hygiene degree with a total of no more than 60 semester hours of work at SIUC. Harper College students must complete the SIUC Capstone Application in addition to the SIUC undergraduate admissions application, the Dental Hygiene selective admission Application, and any other selective admission criteria to be admitted under this Option.

Harper College graduates receiving an A.A.S. degree with a minimum of 60 transferable hours to SIUC in Dental Hygiene with less than a 2.25 overall GPA, but with an overall GPA of 2.0 to 2.24 (on all accredited work using SIUC's grading regulations) will be eligible for admission based on space availability to the Dental Hygiene program at SIUC. These students may require more than 60 semester hours to complete their Dental Hygiene Bachelor of Science degree.

4. Harper College students transferring to the Dental Hygiene baccalaureate degree program at SIUC who have not completed all of their A.A.S. degree requirements at Harper College will have their related course work evaluated on a course-by-course basis by the appropriate ASA program.
5. All students will be required to complete 60 senior institution hours, the last 30 hours at SIUC, and at least 120 hours with an overall GPA of 2.0 to receive a Bachelor of Science degree in Dental Hygiene. Course work may include University Core Curriculum as well as Dental Hygiene major courses.
6. An SIUC Dental Hygiene representative will communicate periodically with Harper College personnel in Dental Hygiene for general advisement and degree planning purposes.
7. Upon successful completion of all degree requirements, and following all policies and regulations stated in the program and university guidelines, Harper College students will be eligible to receive the Bachelor of Science degree in Dental Hygiene, College of Applied Sciences and Arts, Southern Illinois University Carbondale.
8. Should changes occur in course or program content, the school making the change agrees to notify the other school in writing so that this agreement can be re-evaluated. Notice of changes shall be given at least 45 days prior to the beginning of the semester when the change is implemented.
